******* INTRODUCTION *******

The Solar Return is a chart calculated for the time that the Sun arrives at the exact position of the Sun in your natal chart. That happens once every year around your birthday, but at a different time each year. This chart is calculated for the time of the Sun's return this year and marks the principal events for the year from birthday to birthday. This report also gives the location of your Solar Return. From this, it can be determined that some places are more favorable than others. With the aid of more than one report you could analyze the changes that are produced in the Solar Return Reports, choosing from different locations where you would want to spend the day.

This report essentially is divided into two parts. The first part analyzes the general external conditions of the year: opportunities and problems that could occur in different areas. For the benefit of students of astrology, the influence of the Ascendant and Midheaven of the return are described as well as that of the Sun and Moon.

The second part analyzes the twelve astrological houses, marking specifically in what area of your life the various astral influences will be manifested, emphasizing your probable responses and inner changes. This section analyzes the position of the solar houses on the natal houses, the planetary conjunctions, and the location of the planets in the houses. You will be given a description of the most important matters derived from the placement of the planets in the houses, which are outlined in the text for each of them.

In some cases you will find contradictions. A planet may be beneficial in a certain area, while others may indicate the opposite situation. This means that you could have two types of possible situations during the year. For example: a lover's quarrel and a following reconciliation. To get the most out of this report, it will be necessary to use your own logic and intuition, fitting the descriptions outlined here to your own particular case.

The objective of this report is to offer you a practical guide that helps you to analyze this year's prospects and to learn from them using your free will.

******* FIRST PART *********Chapter 1****General characteristics of the year. The external conditions.***Solar Return Ascendant Pisces:*

Your imagination and creativity will be intensified this year, and your outlook on life will be less realistic than usual. You will be more sensitive and inclined to have your feelings hurt over things that would normally not bother you. During this period you could be more intuitive and perceptive. You may have unusual, visually powerful dreams, or precognitive dreams. You may become strongly attracted to the psychic world or to the paranormal. You may be drawn to study these subjects and to discover more about your inner self.

There is a strong tendency to get caught up in your own world of ideas but have difficulty expressing them to others. You will be so involved in your dreams and visions that you will have a hard time operating in the outer world and taking necessary action. You will find yourself less practical and logical than usual this year. However, your impressions of people and situations will be unusually accurate and perceptive. Listen to your inner voice. Trust it to guide you, in spite of your apparent lack of common sense. You can count on that "angel on your shoulder" to get you through this year.

Because you are more inclined to want to be helpful and have concern for the problems of others, you will tend to neglect your own needs. You could neglect your projects and responsibilities for the welfare of others, which you may regret later on. Remember that you aren't seeing as realistically or clearly as you usually do at this time. Don't let that upset you. On the other hand, while you are protecting and caring for the defenseless and needy, you could very easily become a victim yourself. You might find yourself looking for pity or inordinate approval from others for the work you are doing, which would not be in your best interest. If by nature you are a more rational, practical person, you may enjoy these new attitudes and abilities for this time. You may make some wonderful discoveries about yourself or reality which you can draw on a later time. However, if you are inclined to be more dreamy and sensitive naturally, this influence could cause you to become too impractical or vulnerable. In either case, it is recommended that you use special caution in making commitments, signing contracts, making investments or loans, or taking any action which binds you or obligates you in a romantic situation. Don't mix your emotions with your work or your money.

This year you might have to deal with karma that you have not taken care of before. This may be the time to work with it so that you can let it go. This is not the best time to make great financial or professional advances.

Physically, your most sensitive spot will be your feet. You might be subject to sprains, pains, or infections. Use good walking shoes and walk barefoot every chance you get. This year also could bring some ailments that are difficult to diagnose. That is because their cause is psychosomatic. You may have unusual or strong reactions to medications so don't hesitate to consult your physician if

you sense that a treatment is not working properly for you. The desire to escape from reality may lead you to drugs or alcohol. If you already have an addiction problem, you will need to work with it very seriously this year. It is very important to control the use of any addictive substances during this time.

Since you will be having more than usual difficulty dealing with the real world, it would be advantageous for you to be in contact with people who are more practical and organized. You can hope that a Virgo walks into your life at this time for you could benefit from his or her clear-headed thinking. If you are in a committed relationship, your partner could be your connection to the real world. If you are not involved with anyone at this time, you should remind yourself that you might not be seeing that new person with true clarity. You will be inclined to idealize anyone you meet. It would be wise to postpone any new commitments until the year is ended.

Solar Return MC Leo:

This year your ambition will prompt you to desire progress in achieving the material wealth you long for. You will be willing to do all that is necessary to grow and elevate your social status. Influential contacts will bring new opportunities for you and will show you how to use them to your utmost advantage. You also have the ability to attract or create opportunities on your own now. But be careful how you go about doing this because you could become inconsiderate and selfish, causing some clashes with the people around you. Your emotional and personal life also could become more complicated or pushed aside altogether because of these material interests.

This influence could very possibly bring you professional success and bring to fruition something you have long desired. It also will help you in developing new goals for your future. But you must guard against alienating the people around you by your strong desire to succeed and be noticed.

If you are involved in creative or artistic work, then you will receive new inspiration. If your work involves more practical thinking and action, you will find ways to make changes that will allow you to have more authority and stability in the future.

Your excessive concentration on work could cause you to neglect your home life. If you live with other people, it could cause you to have some unpleasant encounters and disagreements. If you live alone, you may want to make some changes and rearrange some things in your domestic life. This could involve rearranging and making modifications to your home. As you progress, you could be tempted to go overboard with your expenditures, which you could regret when this year is over.

Chapter 2

Astrological influence of your personality.

Sun in 1st house:

Your self-respect, pride and vitality will increase during this year. One of your fundamental goals will be to define your place in the world, and for that you will work with more energy, enthusiasm and authority. If by nature you are a timid person, you will surprise others with your power of decision and your initiative. If you are already a confident, positive person, you will express yourself naturally this year and you will find favorable solutions to your problems.

One of the most important characteristics of this influence is the increase of your will. It gives you the energy to work long and hard in order to achieve your goals. On the negative side, you could become domineering, arrogant, excessively proud and vain. It would be advisable to moderate these attitudes because you could alienate others who would then try to prevent you from accomplishing the things that are important to you. Listen to what your own INNER VOICE tells you when you are in doubt. You will then be true to yourself and will follow the most desirable path for you.

Your vitality will also be very strong. Should a health problem arise, it will be of short duration. If you are already suffering from some illness, the healing process should be fast and effective. It would be advisable to get out into the sunshine whenever possible to replenish your energy.

This influence increases your intuitive judgment and trust in yourself that you can accomplish whatever you set out to do. Set your doubts aside and follow your true desire. Success is in your corner.

Sun conjunction Moon:

This astrological influence is very strong and accentuates the possibilities outlined in the previous paragraph. The energy of these two adjacent luminaries could be very intense. You will be more sensitive and will react more strongly to things around you. The New Moon under which your birthday falls indicates new experiences, initiatives, and success in projects that are begun in this period. This energy is concentrated in the house that the Sun occupies during this year (as described in the previous paragraph) and will benefit you immensely.

You may also become more sentimental and have the need to strengthen your family ties. Your interest in discovering your roots will increase and you will feel more connected and attached to those who have had an influence on your childhood and your early home environment. This influence also favors contact with the public, especially women.

Sun conjunction Mercury:

Your ideas will be on the right track this year. You will be able to understand situations better and put things in their proper place. Communication will be important to you and this influence will prompt you to keep your correspondence up to date and to stay in contact with your friends. You

probably will take one or several short trips, especially if other astrological factors in this report indicate the same.

Sun square MC:

You could meet with obstacles or oppositions in your profession during this year. You will have to work and sacrifice more in order to achieve the position that you desire. Don't get too obsessed with blaming others though because it could be due, in part, to the fact that you reject the ideas and opinions of others. Due to your negative attitude, your social life could also be affected. You will feel that your objectives are not in tune with others and will insist on doing things your own way. You will probably prefer working alone as much as possible this year so you will not have to deal with opposition from others.

Situations not related to your profession could also be problematical for you. These could be things like disagreements with your partner or business associates, problems in your home life, or your own lack of enthusiasm for and trust in your own projects. It is important that you define your goals and that you work with perseverance to achieve them without letting anything get in your way.

Sun sextile Jupiter:

This will be a very favorable and happy year. You will be experiencing some very positive energy that will enable you to resolve your problems very easily. As a matter of fact, because of your enthusiasm and optimistic outlook, this could be a very lucky year. You will be very willing to work hard and eager to take action with a smile on your face. The area of your life where you will experience a period of general expansion and growth is to be found in the house that is occupied by the Sun this year (described in the previous paragraph) and in the house occupied by Jupiter (described later on). Your social life will increase and bring you in contact with more influential and powerful people.

If you are involved in some type of litigation or legal process, it will be settled in your favor. Your sense of justice will increase along with the desire to acquire more knowledge. You will seek out new experiences and will have a strong desire to travel this year.

This will be a year to harvest all that was cultivated in previous years.

Sun trine Asc:

During this year you will feel very good. You will enjoy the company of others and, therefore, your relationships will be very favorable. You will show great enthusiasm in your work and everything you do. You will be full of vitality, joviality, and energy. You will be attracted to happy and amusing people and events. There also is a possibility of planning some trips during this year.

Physically, you will have the necessary strength to combat any problems you may have. If you have some physical ailment, you will move toward healing it this year. The improvement will be due to your positive attitude and to your search for gratification and personal satisfaction. You will

be revitalized and relaxed and, in return, will induce a similar response from your environment.

The relationship with your father, or with people who represent authority figures in your life, will be very favorable. You could receive the support and collaboration of people in high positions.

Sun semisquare Venus:

You may encounter, and have to deal with, some unresolved romantic problems from the past. Stay calm and develop a positive attitude toward your partner, as well as your social life in general. The irritations and displeasures caused by others could be the reflection of your own inner uneasiness. This aspect generates a desire for comfort and pleasure, which could lead to disruptions in your routine, followed by a possible loss of income. Do your best to control these yearnings and search for a creative solution for your inner dissatisfaction.

Sun quincunx Uranus:

You will be very nervous and impatient during this year. You will get tired of your daily routine which could cause you to make quick and erroneous decisions. It is important that you moderate your impulses and act intelligently. You will require more freedom of action and you may become short and abrupt with people who interfere. You should try to direct your energies consciously, because reacting explosively will only complicate matters.

You also could be prone to accidents involving speed or electricity. Drive carefully. It will be very difficult to remain calm and tranquil during this year.

Chapter 3

The emotional world.

Solar Return Moon in Scorpio:

Your emotions will be very intense and profound during this year. You will live each moment with great emotion and your reaction to events will be strong. If by nature you are a calm person, you will feel more anxious and uneasy during this time. If you are inclined to be restless, it will be necessary to look for creative outlets for the extra energy that you will feel.

You will express your affection more strongly than usual. This influence also could increase your impatience with what you see as the stupidity of others. You will also find yourself being more possessive with those close to you. If you are in a committed relationship, you will try to dominate him/her and will want to be with him/her all the time! Try to control yourself and keep your jealousy in check. Your partner could feel like he/she were being suffocated by your demands to be with this person all the time. It is important for you to know how to control your impulses so that you don't create arguments with your partner.

The relationship with your mother, or with other women who have certain power in your life, could be very difficult during this year. There could be frequent disagreements and a tendency to want to impose your ideas on each other. You won't let anybody intimidate you and will respond aggressively to everyone who limits your freedom. If you were attacked or invaded, your reactions could be rather violent.

You could be inclined to take more risks in your work and to respond with great energy and intensity. Your investigating spirit will surface and you could become interested in delving into the secrets of others or into life in general. Your intuitive gifts will be more pronounced and you could have psychic or paranormal experiences.

This influence could increase fertility in women, although it also could indicate female disorders. In either case it would be advisable to pay special attention to the reproductive area and use moderation in sexual activity.

Solar Return Moon in 1st house:

You will be very sensitive and emotional and will pick up the vibrations and moods of others in your environment more easily. Therefore, your moods could more changeable and unpredictable. You will need to learn how not to take on the negative energy of people around you. Therefore, you will develop a protective instinct which will shield you from the negative energy of others and make you more concerned with yourself and your needs. You should consider it carefully before making the changes that you think you want to make. Don't make impulsive decisions because they wouldn't work out now. Because you will be more sensitive and impressionable, you should wait until you can think clearly and realistically before making a final decision. There is a possibility that you will make a move of your residence and/or do some traveling.

During this year you will have more contact with the public and will increase your popularity. Your personal magnetism will attract the attention of others, and sometimes you will receive praise, but other times you could receive criticism. Either way, you will be noticed!

You will receive support and encouragement from the women who have influence in your life for the achievement of the goals that you propose during this time.

For women, this influence increases fertility a lot.

Moon conjunction Mercury:

Your thinking will be strongly influenced by your emotions, which will be both positive and negative. You will talk a lot about your feelings, and your communication will be fluent. You will be more imaginative, and if you are in a creative or literary field, this influence will be very beneficial. Business relationships in general will be favored.

At times you could become depressed over small issues, and you could find yourself involved in more trivial or superficial conversations, paying less attention to more important matters. You might also tend to spend a lot of energy talking about new projects but not going into explicit details. You may have frequent and unexpected mood changes so take care not to make impulsive, final decisions.

Communication with your mother and with women in general will be very positive.

Moon square MC:

You could become dissatisfied with your professional achievements and consequently want to make changes in your work. These changes will be made impulsively without being clearly thought out, which could lead to future regrets. Take care to be as rational and careful as you can when making any decisions.

You could also be the recipient of hard criticism or gossip concerning your work performance. These comments will most frequently come from women in your life and will affect you strongly and immediately. Your ever changing moods could greatly hamper your decision making ability. You will need to review your priorities in regards to your work and your home and act accordingly.

Moon sextile Jupiter:

You will feel a sense of well-being and contentment all year. Your emotions will be very positive and you will be optimistic, happy, and generous. As a result you will earn the appreciation of people in general, increase your popularity and receive spontaneous, willing help from others, especially women.

You will have good fortune in the things that you undertake. This will be mainly due to your sincere and positive attitude. This will also spread to the financial area, where you will probably

gain more income. In addition, the atmosphere in your home will be very positive and harmonious. Existing differences and disagreements could disappear during this time, and you will find the support and harmony that you need. The relationship with your mother as well as other women in your life will be very positive.

You could also grow in your love for mankind and your spirituality. You will offer your service to others and will receive the same in return. This will be a very happy year.

Moon trine Asc:

Your social life and the contact with others will be very favorable during this year. You will search for profound and intimate relationships, and you will be willing to help and protect the people you love. You also will become very sensitive and perceptive, which makes it easier to relate to the needs of others. Your understanding will be deep and intuitive.

You will receive the benefit and the protection of certain friendships with women, and any contact with the public in general will be very profitable. You will have charisma and will project an agreeable, warm, and caring persona.

You will also feel the need to belong to some group and will search for contact with people who have the same interests as you. They won't be difficult to find!

Moon semisquare Venus:

You will search for endless pleasure during this time which could bring you into contact with people of questionable character. It's important to select your friends and associates carefully so that you don't waste your time or your money. There is a risk of becoming involved in a public scandal.

You probably will be very sensitive and emotional, but your demonstration of affection could be misunderstood. You could become possessive and jealous, thereby restricting the freedom of your loved ones.

It is advisable to think long and seriously about changes you want to make because you will be inclined to act on a whim.

Moon quincunx Uranus:

You will be very impatient, rebellious, and generally nervous during this time. You will want to break the rhythm of your routine and will respond with anger to people or situations that limit your freedom. Moderate your reactions in order to avoid creating unnecessary chaos and difficulties in your environment.

You will be emotionally unstable and difficult to satisfy. You will be attracted to more unconventional relationships and will be easily bored by too much conventionality or stability. If you are in a committed relationship, there could be a threat of separation or changes in your routine.

On the home front, there could be problems, especially with the women in your life, who won't understand your new ideas and will tend to be critical of them. You could experience abrupt and unexpected changes in your home which, in the end, will not be to your advantage.

It is important to take care of your health, especially your digestive system. Due to the great tension of this year, you could be prone to certain stomach disorders. Maintain a light diet and, if possible, avoid red meat and fatty or fried foods.

Solar Return Moon Conjunct natal Sun:

Your relationship with the public and with women in general will offer you more security and trust in yourself. You will show more pride and will feel the affection you receive from other people. Possibly, a cooperative venture with a woman could help you to achieve the success you desire.

In a man's chart, this influence could bring the ideal woman into your life. If you are already involved with someone, this influence will bring the balance you need into your present relationship. In the chart of a woman, it could mean the re-affirmation of your personality and womanhood.

******* SECOND PART *********ANALYSIS OF THE 12 ASTROLOGICAL HOUSES. INNER RESPONSES.****HOUSE 1: Personality. Principal interest of the year.**

Solar Return Asc in or within 3 degrees of natal 4th house:

Your attention will be on your home. You probably will make some changes in your home or could even change your residence. You will have a great desire to achieve stability and to put down roots in your own place. Consequently, you will search for situations and people who can offer you material and moral security. Real estate investments will be very favorable during this year.

Saturn in 1st house of Solar Return:

This will be a year of personal maturation. You will find yourself forced to confront problems and obstacles that will require you to be more realistic and practical in resolving them. You might not experience these challenges as being pleasant or easy, but they will be necessary for your growth. No matter what type of temperament you have, you will be more introspective and introverted now. Any type of therapy that you have during this time will be very beneficial because it will help you to understand your inner self better.

You will have some new responsibilities and liabilities that will limit your personal freedom. You may find yourself being tested to the limit as these experiences could be difficult and distressing for you. You must work on overcoming any feelings of fear, pessimism, or depression. If you don't deal with these fears, you will encounter similar issues in the future which might be even more difficult to resolve.

Physically, your energy level will probably be low, so it will be necessary to maintain a diet that provides the nutrition your body needs, especially calcium.

HOUSE 2: Financial situation.

Solar Return 2nd cusp Conjunct natal 2nd cusp:

This year's possibilities will force you to earn money through your own efforts. You should rely on your ideas and hunches about where and how to invest money. This will be a period of financial success, unless there are other astrological aspects to the contrary.

Solar Return 2nd cusp Conjunct natal Venus:

You will really enjoy spending the money you earn now or have earned in the past. You will allow yourself to have pleasures you had not permitted yourself before and possibly will run up a large amount of debt. And if you are in a committed relationship or meet someone and fall in love

this year, you will have the desire to share everything with your chosen one.

Pluto in 2nd house of Solar Return:

This year will bring profound changes in your financial situation. You will be presented with possibilities for discovering new sources of income which you didn't expect. However, this could require you to make some radical changes in your life style.

You will concentrate more on your material security needs, and will pay more attention to people and to situations that can help you obtain a more secure financial base. You will be concerned with finding new meaning in your daily activities.

However, the changes you attempt to make could also result in loss or setbacks that will force you to explore new strategies and plans for your future. It is possible that these adverse situations are not under your control but are caused by the general economic conditions at the time.

Solar Return Pluto Conjunct natal Saturn:

You will resist making very many changes in your daily life. You will hold on tightly and rigidly to the familiar ways of doing things. You could have confrontations with people who attempt to manipulate or expose you, and you will respond in a firm and decisive manner.

HOUSE 3: The conscious mind. Study, communication, and short trips.

Solar Return 3rd cusp Conjunct natal 3rd cusp:

Your inner desire to correspond, write and express your ideas will be accentuated. If you have literary aspirations, this could be the year you succeed in producing an important manuscript and in getting it published. It also will be a good year for intellectual production in general, favoring studies of any kind.

You also may take a number of short trips during this time. Your relationship with the immediate environment will be favorable.

Solar Return 3rd cusp Conjunct natal Saturn:

Your communication and expression of ideas will become more restrained. You will become more serious and secretive regarding the way you share your ideas with others. You will probably become more realistic and practical in your way of thinking, tending to be more pessimistic than usual.

HOUSE 4: The home.

Solar Return 4th cusp Conjunct natal 4th cusp:

You will show great concern for your home and your family. You will look for ways to achieve

the stability you always yearned for and will make the necessary investments. Your life will become more quiet and inactive during this period, as you seek to put down roots in your current place of residence. Contact with your family will be more intense and you could have an increased desire to learn more about your own family history.

Neptune in 4th house of Solar Return:

The climate in your home could be confused and uncertain and you could have problems that are difficult to resolve. This uncertainty in your home could be the result of dishonesty, betrayal, or envy. There is also the danger of robbery or theft so it would be advisable to increase your security methods. Make an attempt to carefully select the people who visit your home. Also become aware of any current problems or disagreements between the persons in your family circle. If you don't take these precautions, you will suffer the consequences at some future date.

It is possible that your family will demand certain types of sacrifices from you that you won't be willing to comply with, and if you do, they will become a heavy load. This will be coming mainly from your parents or others in authority over you. These problems will probably surface toward the end of this solar year.

HOUSE 5: Romance & amusement. Relationship with children.

Solar Return 5th cusp Conjunct natal 5th cusp:

This year will bring opportunities for romance. If you are not involved in a committed relationship, you could very well meet someone this year. If you are already in a relationship, you will enjoy and appreciate each other's affections. It is important that you express your feelings during this time and that you receive the level of happiness you are looking for. It also will be a good year for amusements such as games and sports. Unless there are contrary indications elsewhere in this report, your relationship with children will be especially positive.

Uranus in 5th house of Solar Return:

Your romantic situation will change in some way during this year. You will be attracted to unusual or flamboyant relationships. If you are already in a committed relationship, you will seek to make changes in your routine; otherwise you could go through a crisis. There is a possibility of unexpected and sudden romances, although they will probably be fleeting. You will have a more open attitude toward the meaning and the importance of love in your life and will be attempting to free yourself from restrictions of any kind.

Your creativity will increase and your work will be very original, but you won't be able to count on the approval and total acceptance from others because they will consider your ideas to be a little extreme.

This won't be a good year for speculative investments or risk ventures. There is the possibility of both sudden financial gains and losses. Be cautious also with games of chance and other

investments.

In a woman, this influence could bring female disorders or problems with a pregnancy.

HOUSE 6: Health and illness. Employment. Service.

Solar Return 6th cusp Conjunct natal 6th cusp:

You could have complications with ongoing health problems. Be careful of your diet and any negative habits which could affect your health in general.

It would be a good year to get involved in service-related occupations or in the medical field, if that is appropriate.

HOUSE 7: Associations. Marriage and partnerships.

Solar Return 7th cusp Conjunct natal 7th cusp:

Your relationships with a spouse, partner, or business associate will be especially important this year. Depending on the quality of your relationship at this time, a positive union could continue to be positive and rewarding. On the other hand, any relationship which is not a solid one could weaken even more.

HOUSE 8: Life and death issues, inheritances, and mysteries.

Solar Return 8th cusp Conjunct natal 8th cusp:

This influence suggests that you take care this year to prevent exposure to some sort of danger or an accident. If you are careful, you will be all right. However, if you are somewhat accident-prone, you should be more cautious and prudent during this year.

HOUSE 9: Religion and spirituality. Long-distance travel.

Solar Return 9th cusp Conjunct natal 9th cusp:

If you had planned to travel to a foreign country, this will be a good year to do it. You will feel very good about your basic religious faith and your philosophical ideas this year.

Solar Return 9th cusp Conjunct natal Mars:

You may be inclined to be dissatisfied with your own spiritual or philosophical ideas. You could become very involved in and concentrated on some devotional activity. On the other hand, you could react very impatiently toward new abstract ideas that you are presented with. During this year, you will refuse to consider any new idea that can't be proven in a logical, rational way. However, if you have a firm faith in some religion or spiritual belief, you could very well become more fanatic in defending your ideas. There is a possibility of having problems or accidents while traveling

abroad.

HOUSE 10: Your profession, success, and status.

Solar Return MC Conjunct natal 10th cusp:

Your professional aptitudes and desires will be accentuated during this period. It will be an important year so work consciously and persistently on the achievement of your goals. This year will bring opportunities for professional advancement. You will feel more confident and safe about demonstrating your own abilities. It will be a year of social growth, as well as status. There is the possibility of receiving a prize or recognition for your efforts and level of ability.

Solar Return MC Conjunct natal Moon:

You will find a way to blend your personal life with your professional life. You will tend to be more changeable and emotional, and will pay special attention to loved ones and to your feelings in general this year which will have a strong influence on your possibilities for success during the year. If you receive adequate support and affection from those close to you, you will progress a great deal, but if you are not receiving satisfactory attention and understanding, it could affect your work performance.
