**\*\*\*\*\* Chapter 1 \*\*\*\*\*****Your individuality. Your personality.  
Your emotional needs. Your mentality.**

To find the ideal profession, you have to know yourself first. There are activities you are suited for according to your nature, and others you are not. Your ideal occupation should favor the expression of your individuality (Sun) and your personality (Rising Sign), satisfy your emotional needs (Moon) and permit the development of your intellect (Mercury).

*YOUR INDIVIDUALITY: Sun in Aquarius*

You were born under the sign of AQUARIUS and your ruling planet is Uranus, which makes you rebellious, independent and unconventional.

Your Sun sign is FIXED and this impels you to fulfill an organizing function, either in thought or action. Your attitude is firm, persistent, stable and decisive. You have the ability to concentrate profoundly on your projects and to stay firm in your purposes. In spite of this, you will have to cultivate a certain flexibility to avoid obstinacy and selfishness.

Aquarius is an AIR sign and this makes you curious, sociable and mentally very active. All occupations that stimulate your intellect and the possibility of communicating will be very favorable. You need variety, harmony and the exchange of ideas.

You like to be free and do not adhere to routine or the limitations of daily life. Because of this, your manner is personal, informal and sometimes a bit too hasty. You are very curious and attracted to everything that is special, different or mysterious. You enjoy travel, adventure and the possibility of meeting new people and places. You can communicate easily and make friends everywhere you go. Your independent attitude permits you to relate to everybody and not to commit yourself to anybody. You learn things that interest you very quickly, but also get bored quickly when a subject is slow or tedious.

Your life will be filled with changes and surprises, some will be planned and others totally unexpected. You are very creative and you always put your personal touch on everything you do. You have the ability to invent, transform and change your environment. Your demeanor and the course of your life will always be unpredictable.

You were born to change the world around you, to provide new ideas, styles and conventions. Your way of thinking or acting probably will be criticized, but it will teach others to widen their horizons and open their minds. You were born to break the rules, procedures and duties, especially when they become outmoded or obsolete. Your humanitarian, altruistic and futuristic vision will permit you to think about the function of groups and to render your help to them. Another of your missions is to create, to invent, to innovate and to develop your creativity and imagination.

To evolve, your spirit needs to learn to develop patience with the things you cannot change or with people who are unable to keep up with your pace. You have to control your eccentricity, rebelliousness and wrong ideas so that you don't waste your energy protesting things that you can not accept. You could easily fall into immature and erratic modes of thinking, or quickly change your feelings and interests, and act with indifference and coldness toward others.

*YOUR PERSONALITY: Ascendant Sagittarius*

Others see you as a lively, happy and very spontaneous person. You leave a share of your humor and friendliness in every place you visit.

You have a very jovial and youthful attitude that will make you appear younger than you actually are. You are very curious and want to know everything that is going on around you. This allows you to act freely and to easily relate to people. A bit naive and easily influenced, you have to try to surround yourself with positive people. Because you like adventure, you quickly get excited about new projects, but also abandon them just as fast, if you get bored or lose interest. The same could happen in your romantic as well as your professional life. You will have to learn to control impulsiveness to avoid future problems. You are idealistic and support just causes. You also like to take trips, especially to strange and distant places.

The profession you choose will have to stimulate your desire for expansion and growth, satisfy your desire for conquest, recognition and finding pleasure. Avoid very sedentary and routine jobs, or those where you will be submitted to very limiting authority.

#### *YOUR EMOTIONAL NEEDS: Moon in Taurus*

Your emotions are deep, stable and very lasting. Your feelings toward someone can be for life, which makes you very loyal and confident, but at the same time very possessive. You seek safety and protection in your emotional world. You are very cautious when you meet someone and over time will open your heart little by little. If you don't receive the stable emotional response you need, you could become obsessed with the material world and may develop a strong desire for possession that will lead you to buy things and to accumulate money.

Thanks to your emotional control, you have the ability to solve problems. You are not easily stunned and prefer to do nothing until you analyze the situation. Your pace is likely to be slower than that of others. You gradually react to situations and never act suddenly. Little by little, you assimilate ideas and things that hamper you. You are well prepared and your ideas are fixed. Once you have made up your mind, it is difficult for you to change your original opinions. You also are very creative, which will allow you to do very well in any artistic endeavor.

Subconsciously, you have a strong fear of change. In previous lives you may have accumulated goods, resulting in your difficulty to act with indifference today. You may still be tied to those things or persons that wronged you or limited your freedom. You may have experienced abandonment and poverty that you do not want to repeat. You probably haven't learned yet to rely on the law of the Universe and the scope of your future economic safety. You have to avoid your "poverty consciousness", obsession, meanness or stinginess, and to develop more inner security, relying on your own resources and productivity, and fundamentally, you have to learn to possess with indifference.

The profession you choose will have to satisfy your emotional need to find stability, harmony, continuity, future security and the possibility of showing your degree of productivity and artistic expression.

#### *YOUR MENTALITY: Mercury in Capricorn*

You have a very realistic, scientific and cautious mind. You probably won't make decisions very quickly, as you tend to study carefully all the necessary steps to take. You are a very good organizer and also a very good leader. You are more drawn to studies of concrete subjects that teach about life itself. Your analytical mind will register each detail in your excellent memory. You are not likely to fantasize, because your practical mind doesn't like to lose time on dreams. You are very self-disciplined and very responsible with your studies.

Your way of communicating could be limited, as you tend to be very reserved and serious. In spite of your seriousness, you have a sarcastic sense of humor, which will allow you to alleviate some of the tensions of your own responsibilities. You are conservative, traditional and inflexible as far as your ideas are concerned. You have great powers of concentration and will persevere toward your goals. You will have to learn to be less materialistic, dogmatic and distrustful.

**\*\*\*\*\* Chapter 2 \*\*\*\*\*****Your abilities and your emotions, inhibitions and strengths.****Hidden talents or challenges, Karma.**

The location of the planets in the houses and the relationship between them can increase or decrease their power. Aspects of the Sun are related to our strength and those of the Moon affect the emotional world and are expressed on a subconscious level.

Aspects that affect your INDIVIDUALITY:

*Sun in 2nd house:*

You have the ability to attract money, but most of your earnings are likely to come through your own effort and initiative. With a very pronounced materialistic sense of life, you are very attracted to possessions that represent status, value and luxuries.

Though money is not likely to be lacking in your life, it is important that you learn to manage it, because it tends to go right through your hands. Many times you may make purchases or unnecessary investments, or incur expenses that you regret later on. You will have to learn to share your possessions and not be dazzled by luxurious things. This position emphasizes your concentration on securities and material things; don't neglect your spiritual security or that of others. Your success depends much on your personal self-evaluation, on your administrative ability and on your relationships to people with power or higher positions.

*Sun Square Moon:*

There is a natural conflict between your ego and your emotions. You are very susceptible and tend to overreact to everything. Sometimes you may consider your individuality, your personal objectives and your profession more important, and at other times you give more significance to your feelings, your relationships and your family life, without being able to easily conciliate both areas of your life. Emotional problems could interfere with your concentration on daily tasks. It also may be difficult for you to work and to attend your household at the same time.

This conflict can be surpassed by conciliating the feminine and masculine side of your personality. You will have to learn to make decisions, to assume responsibilities and to be consistent without letting it affect the way you feel. You will have to control your changing moods, especially when you become negative or pessimistic, and mainly, you have to avoid feeling sorry for yourself. When you acknowledge this destructive tendency in yourself, you will be able to grow and overcome this astrological influence.

*Sun Square Jupiter:*

You tend to be a bit lazy and are fond of comfort. Your optimism could be exaggerated and create the impression that everything will be solved magically. You have to resist self-indulgence and the tendency to be selfish. You are likely to assume that people will make way for you and you have little consideration for others.

You need to learn to place limits on your objectives and ideas in general, because you tend to see only the big picture and underestimate the finer details of everything.

Aspects that affect your EMOTIONS:

*Moon in 5th house:*

You are likely to be very inventive and could excel in a career in teaching, sports or the theater. You have a great deal of charm and can get along well with people, especially children.

*Moon Opposition Jupiter:*

You are likely to be too generous, which could generate problems for you. You have to learn to place limits on your offerings and not to rely so much on others. You have a tendency to exaggeration, showiness and a certain extravagance. You tend to be too confident of your possibilities, which makes you prone to have losses in business or litigations. You can be indulgent, lazy and negligent. To avoid problems, you have to learn to be more organized and to put order in your life.

*HIDDEN TALENTS: Sagittarius on 12th house cusp*

You have a tendency to forego anything that gives you happiness, pleasure or simply entertains you. You may be too absorbed with your obligations and daily responsibilities and because of this, you don't thoroughly enjoy your life. It is necessary that you learn to relax and to release your inner child and try to develop your creativity more.

You should be concerned about studying and acquiring your university degree, as you are inclined to abandon your studies. You also will have to avoid the tendency to fanaticism or to cling stubbornly to some kind of philosophy or religion.

This astrological influence could bring legal problems, judgements or losses abroad. There is a tendency to escape or to hide in another country.

**\*\*\*\*\* Chapter 3 \*\*\*\*\*****Expansion (Jupiter) and retraction (Saturn).  
To give and to receive.***EXPANSION: Jupiter in Scorpio*

Your sense of expansion manifests through your creativity and desire to change the world. You are an eternal investigator and because of your great desire to know and learn, you question everything. You are interested in the supernatural and are inclined toward spiritual and mystical things. You have great faith and confidence in yourself and will be very persistent in the search of your objectives. Your material success will be expressed through your tenacity, faith and energy.

*Jupiter in 11th house:*

You are very sociable and pleasure-loving and because of this, have many friends and helpful acquaintances. You like to participate in organizations, groups, clubs or religious affiliations. Your material growth depends to a large extent on the relationships and friendships you maintain throughout your life. You are likely to achieve your goals with relative ease, which can make you a bit lazy and lax.

*Jupiter Opposition Moon:*

It is probable that you may have had overly indulgent parents and because of that tend to be very complacent today. Avoid carelessness, laziness and don't let things slide. You also should avoid surrounding yourself with people who protect you too much and make decisions for you. It is important that you learn to discipline yourself and to direct your energies more carefully.

*Jupiter Square Sun:*

You have a tendency to excesses and exaggeration and don't seem to know your own limits. Because of this, you may disregard important details or have difficulty planning the achievement of your goals. You have to learn to be more orderly, to concentrate your energy on clear and specific goals and to avoid laziness, self-indulgence, illegalities and the tendency to take the easy way out.

*Jupiter Trine Neptune:*

You are strongly spiritual and religious, and you like to help others. You are very intuitive and strongly attracted to the mystical and metaphysics. You would do well in careers involving education, social work or artistic creativity. You are very noble and always work toward your spiritual evolution.

*RETRACTION: Saturn in Taurus*

The inhibition principle affects your own personal evaluation. You have a strong need for financial and emotional security, which makes you a bit apprehensive or rigid when facing new things. You probably are not very comfortable having total freedom to do what you want. It is important that you have the help and collaboration of others, and that you avoid thinking that one must work hard to earn what one wants, because this alone can frighten you more. You can develop an incredible resistance to adversities in difficult times.

*Saturn in 4th house:*

You feel responsible and are concerned about everything that relates to your home. In spite of feeling

independent, you are afraid of leaving your parental home (if you already have done so) and also your past. You will be much happier away from your place of birth and could achieve more material success farther away. Your principal frustration may manifest through your excessive desire to please others, especially your parents. They may have been too strict and conservative, yet constantly imposed many responsibilities on you. You need a more intense emotional support to overcome your lack of affection and to increase your self-esteem.

*Saturn Square Uranus:*

You are tense and unpredictable, and likely to release your tension suddenly. You strongly rebel against obligations and limitations in your life, which was probably brought on by confrontations with your father during your childhood. As a consequence, you tend to have difficulties in dealing with other authoritative figures: bosses, superiors, police etc. You can be aggressive towards others in order to hide your feelings of insecurity. You will have to learn to relax, to accept commitment, and to become more persevering in your purposes.

*Saturn Trine Mars:*

You have the ability to direct your energies in an organized and disciplined way; you know when to run and when to stay. Your constructive energy allows you to excel in military or engineering fields. You are noble, sincere and respectful of other people's rights. You look out for your family and friends, and are very loyal in your feelings.

*Saturn Sextile Venus:*

You are reserved, not very demonstrative with your affections, and tend to be very frugal with money. You probably will not have many friends, but the few friendships you maintain will be very lasting. You are attracted to people who take life seriously, and you communicate better in smaller groups than in large ones. Your finances are likely to be stable and you work with all the energy at your disposal to overcome every problem that may arise. You tend to work with love and responsibility in your profession.

Success in life depends to a great extent on the balance between giving and receiving, expanding and retracting. Even dwelling on the one and only failure you may have had is like not attempting anything.

**\*\*\*\*\* Chapter 4 \*\*\*\*\***  
**Finances, source of income.**  
**Work in relation to your employment.**

Described below are some possible sources of income. They may coincide, or not relate at all to your professional vocation.

*FINANCES: Capricorn on 2nd house cusp*

Thanks to constant work, your financial progress in life will be slow and progressive. It is associated with an increase of maturity over time and because of this, you are likely to have some limitations, fluctuations or delays in material matters. You can excel in executive positions, in organization or in positions where you assume large responsibilities. You will have to learn to manage your own possessions and earnings, and also to save for the future; that way you will avoid suffering reverses or difficulties.

If you don't maintain your self-esteem and high confidence, you may suffer financial frustrations and seek protection from your close relatives. You have to rely on your own initiative.

*Sun in 2nd house:*

You have many ambitions and money is likely to be the main objective of your life. This position promises big earnings, but you could also incur expenses of the same or greater proportion. You earn money through your own authority, directing others, occupying political or high positions, or in activities related to the world of men.

*Venus in 2nd house:*

You have the ability to obtain money, are likely to be prosperous and quite lucky. Social status and luxuries are important to you and you probably will spend a lot of money on pleasures. You have the ability to charm others and this enables you to work well with the public, in cultural activities, in arts or any career that caters to women and beauty.

*Uranus in 2nd house:*

You will have to earn money through special and original methods that allow you to feel free, otherwise you will be very unstable and change jobs frequently. Your financial situation tends to fluctuate and you will rarely have what would be considered a steady income. You could do well in fields related to inventions, sciences, astrology, electricity, computers, vehicles, or human relationships. With your great desire for independence, you would do better in your own business than working for others. You ignore the accepted value system and usually substitute your own. You might receive money through either inheritances or partners.

*Ruler of 2nd house in 4th house:*

Your income is related to your home, the city where you reside, and also to real estate in general. You may work out of your home or in professions such as interior decorator, gardener, farmer or real estate ventures.

Earning money is in direct relationship to our self-esteem. If we consider ourselves valuable, money flows and comes into our lives. Work done with love and pleasure doesn't weigh us down and offers a better profit.

*WORK IN RELATION TO YOUR EMPLOYMENT: Gemini on 6th house cusp*

Your work in relationship to your employment will be expressed through your intelligence and wit to quickly solve problems in a practical way. Your natural sense of authority leads you to seek leadership, however, it may not bring the position that appeals to you or that you may choose. Communication will be the basis of your satisfaction in any occupational position.

**\*\*\*\*\* Chapter 5 \*\*\*\*\*****Your creativity and recreational activities.****Other skills and hobbies.**

Hobbies are also part of our personality and through them, we express to a great extent our creative ability. It is important to enjoy our leisure activities and to complement them with our work or profession to reach greater balance. In our culture, we tend to place importance only on that which brings us money, thereby neglecting the expression of important parts of our personality.

*YOUR CREATIVITY: Taurus on 5th house cusp*

Your favorite recreational activities will be those that bring you in touch with earth; among them could be gardening, agriculture, as well as walking, camping in the woods or fields, horseback riding or mountain-climbing. Your creativity is stimulated by natural environments where you find peace, harmony and beauty. You also may be interested in manual activities such as arts and crafts, ceramics, sculpturing or carpentry. The idea of making money is always on your mind and this could decrease your peace and happiness. You may let your recreational development slide, if you don't consider it productive or necessary.

*Moon in 5th house:*

Some of your pastimes could be: cooking, decorating, collecting photographs or antiques of historical or family value, folk dancing, acting, singing, planting, cultivating, breeding animals, designing clothes or silver jewelry, inventing new meals, caring for children etc.

**\*\*\*\*\* Chapter 6 \*\*\*\*\*****Your vocation, profession, probability of success and social recognition.***Libra MC*

Your destiny will involve you in activities that draw on your strong sense of justice, your love of harmony and artistic talent. You are very adaptable, patient and persistent in working toward your goals. You may seem flexible, but you have an inner resolve that no one can make you change. You will follow no one; you go by your own rules, but in an unobtrusive way. You find the best way of doing things without bothering others or calling attention to yourself. You usually forget any slights or offenses you may receive, but could harbor resentments which may cause you to "get even" when you feel that you are in a position to do so. Your inner world is very reserved and you always show a charming smile, a gentle and gracious manner, a soft voice and a humble attitude toward others. Diplomacy and personal charm are your best assets.

Your career choice could be one of the following professions: attorney, diplomat, judge, mediator, umpire, artist, fashion designer, cosmetologist, salesperson, barber, public relations or any other profession where you would be in contact with the public.

*Ruler of 10th house in 2nd house:*

Your professional success will be reflected in your income. Most likely you will make money through the profession you choose. Your resources and values play an important role in your future success.
