Introduction

This astrological report is designed as a guide for the New Age woman and in it I have considered how the astral influences affect a woman in particular. A great difference exists between the interpretation of a horoscope of a man and a woman, and that is what I am trying to make clear here.

This report is divided into two sections: the first one analyzes your personality with its multiple facets (Sun and Moon positions); and the second one analyzes the twelve astrological houses.

This report is not merely descriptive. In the majority of cases, ideas are suggested that can help your personal evolution. The subjects are approached from different points of view such as metaphysical, spiritual, nutritional and general.

In a few places there may be certain contradictions because an astrological influence may favor one aspect of life and harm another. Because of that, it is necessary that you read the report with a bit of logic and, especially, that you let your intuition guide you.

Woman has greatly changed her social position over time and the realization of the New Age depends in great measure on her. Because of that it is necessary that you know yourself, that you know your potential and your limitations, because by working on your personal evolution you help everyone else as well, contributing to the evolution of all life.

FIRST PART

**Chapter 1:
Your essence. Your self. The Sun.**

**Character is destiny. By improving
your personality you create good
conditions for your future.***Sun in Scorpio:*

Hilary Clinton, you were born under the sign of Scorpio and your ruling planets are Mars and Pluto, which will endow you with great energy and make you invincible in every aspect.

You are intense, ardent, passionate and an extremist. You do not like indefinite or gray situations. You will live every moment of your life very intensely and your emotions will be deep and lasting. You can count on a very strong intuition that will allow you to perceive the results of any situation before it occurs, and it will also help you discover the lies told by people around you.

You are very noble and direct with your opinions. You are willing to offer yourself totally to the people you love and you require the same response to be happy. When you are deceived, you cut the person off completely and, many times, forever. You are not able to keep still for long; the enormous amount of energy that you have will cause you to be in constant movement. You lose your patience easily and your explosions of anger are fearful. It is probable that during your lifetime you will suffer profound, absolute crises that will change your path totally, and on each occasion you will be reborn with more strength and tenacity.

Love will lead you into passionate situations. You love strong, decisive, and ambitious men, full of initiative. You need a continuous, daily and hourly relationship. When you fall in love, you need to be with that person at all times or, at least, in communication with him. You cannot stand waiting, indifference or indecision. You are very jealous and at times you will lose your inner control, causing tense and complex situations. When you love, you love without limits and you need the same type of response.

Hilary Clinton, you were born to lead and direct others, to create, and to investigate. Your fixed ideas and your perseverance will turn you into a leader in any situation in which you are involved. One of your missions is to protect others and to teach them to act with courage and to live a loving life with all its intensity. You were born to unveil secrets of nature and to investigate profound subjects.

To evolve, you need to control your aggressiveness, anxiety, intolerance and tendency to be

revengeful. You must find ways to overcome the jealousy that leads you to smother the people you love, your tendency to manipulate and control everything, and your extreme and inflexible attitude that you will not change, even to prevent loss. You must avoid violence, selfishness and the tendency to be destructive.

Sun in 1st house:

You are very proud of yourself and have the necessary strength to accomplish successfully anything that you set out to do. You will express totally the characteristics of your solar sign and you will always be the center of attention.

You have self-confidence, optimism, and a strong will. You will be an outstanding person, extroverted and with a great ability to lead others, although you will also have a bit of selfishness and a tendency to exaggerate.

Your infancy may have been very happy and the relationship with your father very important. Admiration for him leads you to undertake very energetic enterprises. You feel the desire to please him and you will do everything possible to obtain his approval.

Chapter 2: The Moon. Your emotional world.

Moon in Pisces:

You identify yourself as a romantic, idealistic and helpful woman. You are a dreamer and, most of the time, you do not see others as they are. Because of your idealism you only see the best in people and can wind up deceived and disillusioned. You have a very developed humanitarian sense and you react strongly to the pain of others with compassion, protectiveness and unselfishness. Your capacity to give of yourself is great and you tend towards symbiosis with your loved ones. In addition you can excel because of your high degree of artistic or literary skills.

Your emotional world is very intense and very rarely will you be overly rational or unemotional. You enjoy love and all its manifestations to a large extent. You are very sensitive and can cry easily. In difficult situations you require the help of others to survive. You are evasive and fearful of conflict; you prefer to remain quiet rather than argue and hope your conflicts will solve themselves. You must surround yourself by positive people because you are extremely receptive to the energy that surrounds you. You must learn to discriminate and separate your problems from those of others, and also to not take to heart the responses you receive.

Your relationship with your mother has been neither clear nor defined; at times you may have idolized her, and others, you did not hold her in high esteem. She probably sacrificed herself a lot for her home, putting her own ambitions aside and demonstrating an attitude of resignation towards the situation. In general, her attitudes were helpful and not selfish.

As a mother you will be very intuitive, sensitive and loving. You will always be willing to offer affection to your children and all the attention they need. Try to avoid being obsessive or overprotective with them. Trust in them and teach them to be independent. It is important that in the future you do not recriminate your children for all you have done for them.

During past lives you remained confined for a long time in a convent, hospital, monastery or other institution, learning to have a life ordered by others and dependent upon them. You learned to develop an idealized vision of life that possibly was not in accordance with reality. In this incarnation you have to learn to resolve your own your financial problems, paying attention to various needs that may occur in your life. You must avoid the tendency to isolate yourself when confronting a problem or to feel forsaken when you are alone. On the other hand, your religious faith is important and illuminating. Avoid the torment of the idea of sin and punishment so you can see more clearly what God, or life, wishes to teach you.

Moon in 5th house:

Your feminine identity will manifest itself through your creative power. Hilary Clinton, you have a

great capacity for innovation and you can excel in areas such as education, sports or theater.

You are very charismatic and you will have many romances throughout your life thanks to your inclination to seek pleasure and conquests. You enjoy seduction games and, regardless of your age, you will always have the ability to make someone fall in love with you. This astrological position favors matrimony and offers a great personal satisfaction through love. It is probable that you will have a few fleeting romances or scandals because of jealousy.

You have a great maternal instinct and you feel a great attraction to children. It is possible that you will have many children and that you will be very happy in your maternal role.

Moon Square Uranus:

You are independent, rebellious and eccentric. You do not identify with the traditional role of housewife and you rebel at the limitations that are imposed on you. You are restless and cannot stand routine. You are highly intelligent but at times you lack practicality.

You express yourself freely and without prejudice. Criticism and finger-pointing does not affect you. You are not easy to please and you can be whimsical or hysterical. Try not to waste your energies or complicate your situation; your health can be affected so that you have irregularities in your menstrual cycle or psychosomatic problems.

During your infancy you already proved to be rebellious and showed a strong individualistic tendency. The relationship with your mother was unusual and from her you learned many of your particular ideas. Throughout your life, you will demonstrate a special style at home and you will fulfill your maternal role in a personal manner.

Your eccentricity will make you the center of criticism and gossip but you should not become inhibited. Thanks to your defiant and innovative attitudes, you will be an example to other women and help them change or renounce their unsatisfactory or unjust situations.

Moon Trine Mercury:

You have an intelligent, quick, imaginative and retentive mind. If your job is related to something intellectual, then you can be very successful. Otherwise, you must find a way to take advantage of your mental abilities whether by studying, writing, etc.

This astrological influence suggests a lot of travel and easy communication with people. You have a lot of common sense and emotions do not obstruct your reasoning. You express yourself in a warm, loving and wise manner.

The communication with your mother may be fluid and positive. From her you inherit a great part of your intelligence and the ability to express yourself well.

Moon Trine Venus:

You are kind, gentle and sociable. You will have many friends and will be popular with people. You can relate easily to others and are very gentle in your treatment of them, which will make everyone like you so you make friends easily. You develop in a balanced manner, which allows you to have a correct perception of values.

Love in all its manifestations is very important to you and, throughout your life you will give and receive love in equal measure. You will feel realized as a woman and you will be very happy in the role that you fulfill. Also, you will be healthy, especially in your reproductive system. This astrological aspect also favors fertility.

You have received a lot of love from your mother and that gives you emotional security. You will be very happy fulfilling your maternal role in life.

SECOND PART:**Your destiny according to the 12 astrological houses.**

FIRST HOUSE: Your personality. Your body. Your childhood.

Libra Rising Sign (1st house cusp)

People see you as a soft, gentle and beautiful woman. You have a great talent and natural femininity that allows you to relate easily. You are sociable, kind and enchanting. Your manners are fine and delicate, and you dress with good taste and refinement.

You search for balance and harmony around you. You cannot stand aggressiveness or ill treatment, so you escape from rude people and tense situations. You are romantic and dream of finding the perfect love, which makes you easily disappointed with people. You have much talent for seduction and conquest, and generally get others to bend to your whims. In addition, you have a strong sense of justice and you always analyze the two sides of each situation; that causes you to be indecisive and have strong doubts at important times. Commonly you repress your aggressiveness in order to maintain harmony and you hold a grudge towards those who hurt you. You must learn to forgive and forget.

The inclination towards pleasure lead you to neglect nutrition. You are probably attracted to sweets and that may endanger your silhouette. Also, your indolence does not encourage you to maintain constant physical activity. Your body shows balance and functions well; it is important that you do not neglect it. Music and art are the ideal therapy for you.

Your childhood was harmonious and pleasant. It is possible that you did not have any traumatic experiences or that they were easily overcome. You grew up in an atmosphere of plenty and were overprotected by one of your parents. As an adult, it will be hard for you to sever the umbilical cord and you will always be aware of your family's needs. If the overprotection was exaggerated, then you will be immature, highly dependent and often whimsical.

Mercury in 1st house:

You are curious, adaptable, restless and very nervous. You have a great deal of mental energy and are very acute. You can be very eloquent and you like to talk and exchange ideas and information with different people. You feel a great need to express yourself and sometimes you speak before you think. Your approach to problems will be very rational and logical. Although you can become bored easily, your active mind is constantly seeking new things and is open to new ideas. Hilary Clinton, you are not very patient and you feel very uncomfortable with people who move slowly or who are not mentally agile. You are attracted to traveling and learning all about your environment. Your curiosity is infinite. You can excel in your studies if you learn to discipline yourself and pay attention to what you do. You find it easy

to write. You must participate in some sport or exercise to alleviate the great mental work that you do daily.

Mercury in Scorpio:

Your mind is very inquisitive and intuitive. You are interested in everything that is mysterious or inscrutable and your inquisitive nature will lead you to investigate and study metaphysics, the occult, and esoteric sciences in general. To develop your intuition, it is recommended that you learn to read Tarot cards. You enjoy discovering the secrets of others and you know very well how to keep your own. Your powers of reasoning can be altered by your very intense emotional world. It is important that you do not make decisions when you are angry because at those times you lose your coherence. You have a very acute and sarcastic sense of humor. Hilary Clinton, you generally express your ideas just as they come to you, without any finesse or diplomacy. You will seem aggressive to many people because of your frank and direct manner. Your ideas are fixed and immobile; once you have decided to do something you rarely change. You do not have fears that inhibit you and you challenge any authority. Because you do not always trust others, you can be stilted in your manner of communication. You have very few intimate friends with whom you completely share your life. You must learn to be more flexible, more adaptable to situations and not be too whimsical or dominant.

Mercury Conjunction Venus:

Your manner of communication is warm, gentle and sweet. You say everything at the right moment and you are very persuasive and can excel as a speaker. Your mind will not always be completely logical, instead it will be dominated by your feelings and your sense of beauty. Because your mind functions better in concrete subjects, you may have trouble studying abstract sciences such as mathematics.

Mercury Square Saturn:

It is probable that you possess strong inhibitions against communicating or freely expressing your ideas. Communication with your father could have been slight or nonexistent. You are responsible, deep, reserved, shy and have great respect for everything traditional. Your insecurity can lead to not making decisions and being frustrated in your studies. You can be very lonely and tend towards depression. Your fears can cause you to be rigid in your opinions or cling to structured ideas.

Venus in 1st house:

You are attractive and possess personal charm. Your geniality and sweetness conquer the people you meet. Your manners are gentle and delicate and you dislike noises, violence and haste. You will develop a great aesthetic sense and could excel in an artistic activity. This same influence makes you successful socially because you will be loved and sought after. Your warm and pleasant tone have a relaxing effect on others. You are greatly attracted to pleasures in general, and therefore you must have good dietary habits. Soft music and pastel colors always have a soothing effect on your temperament. You take care to look good and your taste is refined: this will exalt your innate physical beauty. You solve your conflicts with diplomacy, avoiding tension. On the negative side, you can tend towards being lazy and indulgent; you are cooperative and prefer to be assisted by others instead of managing for yourself. One way or the other, your charm will be irresistible.

Venus in Scorpio:

The love you feel will be intense and long lasting. You are passionate and will experience tumultuous romances because of jealousy and your strong desire to dominate. It is hard for you to express your deep, complex feelings with words. You do not feel comfortable with superficial relationships, and since childhood you have been very selective socially. As a result, you have a few friends to whom you are faithful and will probably have them throughout your life. Your sexual life will also be intense. You can sometimes be rough or selfish when you show your affection, and though at times this can cause problems, you will never cease to be very sincere and frank in your admiration of your partner.

Venus Square Mars:

It is probable that you have a very stormy relationship with your father, which will be reflected in your romantic life where domination and submission is the main motif of conflict. It is important to soften this struggle in order to improve your romantic destiny. You can be jealous or possessive and since your feelings are intense you will express them ardently. You could easily pass from love to hate and vice versa. You will begin your love life prematurely and experience some dramatic situations.

Venus Square Saturn:

You feel a lack of love or an indifference from one of your parents (probably your father) and you feel rejected, which makes you shy and incapable of showing your emotions freely. You can often be unhappy or sacrifice your happiness for duty. You tend to be defensive as you have a great fear of rejection. It is important for your destiny that your parents demonstrate love for you in a consistent manner. It would be positive if your marriage came after your twenty eighth birthday, which is when you will reach emotional maturity. If you do not overcome your inferiority complex, this aspect could lead to failed romance and to solitude.

Venus Square Pluto:

You are very demanding of the people you love. You can feel jealous when one of your friends also has another friend because you want to hoard all the attention. Your emotional life will be very deep and complex at the same time. It is probable that you grew up in a somewhat chaotic home, with intense demonstrations both of affection and aggressiveness. Your passion could complicate your life, especially in financial matters. Your sexual life will also be intense and it is recommended that you get a good education on that subject. You will experience stormy romances, with extreme emotions that go from love to hate and vice versa.

SECOND HOUSE: Money. Assets. Resources.

Scorpio on 2nd house cusp.

Throughout your life you will experience extremes in your economic situation. On one hand, you may inherit goods or marry someone of means; on the other hand it is possible that you suffer moments of crisis or limitation. In both cases, the determining factor will seem to be independent of your will. It is recommended that you learn to save and find a point of stability.

You can gain profits by managing the goods or money of others, by doing research, by occupying positions of authority or by entering a profession related to medicine.

Jupiter in 2nd house:

You will be very successful in the business world and earn a lot of money throughout your life. Nevertheless, you must learn to be disciplined and not spend too much because you could cause problems for yourself. You could earn money through investments, export-import, travel, or the stock exchange. You will have many possessions because they mean security and protection to you, and you will be generous at the same time and share them with your friends and family.

Jupiter in Sagittarius:

You developed your ethical principles very early. You possess a great sense of justice and respect religious norms. In the same manner, you tolerate others and respect opinions and viewpoints contrary to your way of thinking. You are very idealistic and you love your freedom. You will travel throughout your life and you will get to know many countries and different cultures. If you move to a different country, you will achieve great things and find happiness.

**THIRD HOUSE: Your mind. Your education. Short trips.
Your brothers and sisters.**

**The mind is a magnet: it attracts
to you exactly what you
think about.**

Sagittarius on 3rd house cusp.

Hilary Clinton, your ideas are humanitarian and altruistic. You are interested in studying and increasing your knowledge in all areas. Also, you have a strong sense of justice and you are sensitive to discriminatory, unjust or painful situations.

Your mind is curious, optimistic and happy. You will investigate philosophy, questioning everything related to life. You integrate solid ideas with abstract ones, possibly coming to important conclusions. It is recommended that you never neglect your intellectual field and that you become dedicated to your studies. You tend to be lazy and to jump from one subject to another. It is possible that you have studied in a religious institution but you are an intellectual and you question most of what you have studied.

You will possibly take many trips, some of them to foreign lands, probably visiting siblings (if you have any) or relatives. Also, you show ease in learning languages and in communicating openly anywhere.

FOURTH HOUSE: Your home. Middle Age and Later Years.

Aquarius on 4th house cusp.

The conditions in your home were unusual and unstable. It is possible that your parents' roles changed or that you experienced a sudden separation from one of them. One way or the other, tensions in your home have led to unforeseen changes causing you to develop a more personal vision of life in general.

During your maturity you will feel free and you could be very independent. You will show your qualities without constraint and can expect to dedicate yourself to the things that you really like without inhibitions. All types of fear or insecurity from your past tends to disappear. You will be very active, creative, original, but also nervous and very impatient. You will not like to waste time or bother to hide your preferences.

Also, you will travel and will show interest in astrology or other occult sciences. Your intuition will be notable during this time.

FIFTH HOUSE: Love. Romance. Children.

**"Love is blind when it is born,
nearsighted when it grows, and
it sees all when it dies."**

Pisces on 5th house cusp.

Two contrary tendencies exist: on one hand you can have numerous children, from three to five if you feel secure in your maternal role; on the other hand, you can avoid the responsibility of having children. If you do have children, they will be sensitive, imaginative and artistic. You will receive much love and attention from them.

Your romantic life will be full of fantasies and expectations. You associate love with an ideal partner and that makes you search for a helpful, attentive, sensitive and romantic man. Such a person is hard to find. It is possible that in your search you experience numerous deceptions due to your idealism. You must learn to see the partners you choose clearly, accepting their present defects and virtues, and avoiding the thought that they will change and that everything will be better in the future.

Possibly your romanticism causes you to experience a premature marriage or unions bereft of harmony. You choose people who need a lot from you and whose many problems you solve. You give yourself totally and unselfishly and expect the same in return, which hardly ever happens. You must learn to ask for what you need and express your feelings clearly.

The following list will help you understand how you can relate yourself to the rest of the signs. If you happen to know the other person's rising sign, you have to combine it with his/her sign in order to get a more complete description of that person.

Libra:

You will feel a great personal identification with people of this sign and together you can develop projects common to both. A good sign for marriage.

Scorpio:

A relationship tied in with business, finances or financial aid is favored over a romantic one. The union offers stability and protection but could also be out of an interest in money.

Sagittarius:

You could maintain very good communication and an interchange of ideas. A mental or light relationship is indicated.

Aquarius:

A personal and intimate relationship in which deep emotions will be shared. A very good sign for marriage because it indicates the possibility of making a home together.

Pisces:

A relationship of mutual love and attraction. You can enjoy and share many happy moments but difficulties exist in maintaining the relationship over time. Ideal sign for courtship or romance, not for marriage.

Aries:

An unequal relationship in which one offers more than the other. A difficulty exists in openly expressing feelings. A work relationship is favored over a romantic one.

Aries:

Ideal sign for marriage or associations. It is also possible that one of your best friends is of this sign. This is a sign of complements; each can have opposing personal characteristics and that generates attraction.

Taurus:

Magnetic and intense attraction is indicated. Sign of passionate and uncontrolled romance based on a strong sexual attraction. A relationship that implies a dare or a strong emotional experience.

Gemini:

A sign that represents a second marriage; a happier and more spontaneous relationship based upon the exchange of ideas common to both. One could assume a protective or teaching role with the other. Probability of an encounter in a foreign land or of long voyages together.

Leo:

A sign that stands out in your destiny. The people of this sign, both friends and lovers, will exert an important influence in your life. It is an ideal sign for marriage because it points out objectives and ambitions common to both, but it can also indicate too much worry over social status.

Virgo:

Sign of friendship that represents common desires and fantasies. Open, friendly, happy and warm

relationship, though probably it will not be lasting. If other common elements exist, it may lead to a marriage based on friendship and respect for each other's individuality.

Libra:

Karmic relationship initiated in previous lives. It is possible that you have to confront strong difficulties to be together and that it is a clandestine or secret relationship. Also, it can indicate an impossible or intriguing love affair. This sign is the least favorable for obtaining a happy and open relationship; if you are involved in one, it will be difficult for you to cut yourself off or escape because of doubts about your destiny and the lessons you have to learn.

Remember the following: everything that he does to you is what you did to him in previous lives. It is good for you to practice the exercise of forgiveness and forget any negative emotions.

Note: if two signs are repeated, it means that the relationship is more complex. If one of the signs is missing, its interpretation is the same as the previous one. To make things easier, this is the list of the signs: Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius and Pisces.

All relationships are PERFECT. Each situation you experience with another person is the perfect and necessary one for your evolution; because of this, it is important that you do not cling to negative emotions such as anguish, depression, fury, frustration, etc., and that you try to see at every moment what life wants to teach you. Each person you know has a message for you and until you listen to it, it is highly probable that it will be repeated. Some relationships have karmic ties: they have been initiated in other lives and there may be dues to pay. It is possible that what someone makes you suffer is what you have done to him/her in another time. That is why you must forgive and forget. In every situation repeat to yourself : "everything is perfect"; though at the beginning you may not understand it, later it will be crystal clear.

SIXTH HOUSE: Health. Nutrition. Work. Service.

Attention: in this section you will find recommendations to improve your health, but in cases with specific problems you must consult your doctor.

Sun in Scorpio:

Scorpio rules the reproductive organs, the rectum, and also the nose. You will have a passionate and intense life, full of extremes. You could have a preference for very seasoned, salty or hot foods. Also, drinking very hot or very cold beverages will contribute to irritations in your body. It is important for you to engage in physical activity consistently as a way of channeling your energies and emotions. Your internal fire may lead to an intense sexual life. Try to maintain good elimination of bodily wastes, including transpiration and evacuation.

To preserve good health, you must consider the following: eat a moderate diet with little seasoning; drink freshly squeezed fruit juices and plenty of mineral water; avoid alcoholic beverages and smoking; do not eat a lot before going to bed because it will produce nightmares; perform respiratory and relaxation exercises before sleeping; avoid sedatives or sleeping pills; control aggressiveness and anger; exercise forgiveness and avoid resentful or vengeful thoughts; practice energetic and competitive sports; keep an eye on your personal hygiene; seek contact with nature and, especially, with water; avoid red meat and coffee; sweat a lot and eat foods high in fiber that help in the elimination of body residues; learn mind-control exercises that help you channel your powerful thoughts in a positive and constructive manner.

Saturn in Leo:

This astrological position can cause hardening of the arteries, constriction of the coronary veins or arteries, heart atrophy, weakness of the heart muscle, and circulatory problems in general. These difficulties originate because of the lack of calcium, magnesium or potassium. It is also possible that your heart is smaller than normal.

Aries on 6th house cusp:

Your short term health problems may be caused by the lack of: amino acids or other bodily acids (such as hydrochloric acid), adrenalin, vitamin B-12, vitamin F, cobalt, iron or phosphorous. This could cause neuralgia, insomnia, high fevers, headaches, vertigo, eye problems, toothaches, abscesses, muscular pain, etc.

It is recommended that you improve your diet with foods that offer vitamin B: legumes, whole grains, nuts, seeds, corn or rice, yogurt, cottage cheese, eggs, alfalfa, etc.; synthetic sources are not recommended because of their difficulty in assimilation. Your worst enemies are coffee, alcohol and sugar. Recommended also are natural sources of iron: vegetables in general, spinach, beets, alfalfa, lentils,

broccoli, onions, olives, soy sprouts, watercress, nuts, seeds, grains in general, brown rice, bee pollen, etc.

Your long term health problems may be caused by an excess of sugar and starch, lack of vitamin E, vitamin P, copper and chromium. This could cause urine suppression, renal problems, stones, nephritis, diabetes, lumbago, etc.

It is recommended that you avoid consuming too many sweets, carbonated drinks, ice cream, cream-filled pastries or anything that can lead to an excess of sugar; in its place, you must learn to eat fresh fruit in season and drink freshly-squeezed juices. Recommended vegetables are the same as those above, with the addition of wheat germ to obtain vitamin E.

Neptune in 12th house:

You may have health problems that are difficult to diagnose so that you receive erroneous treatments or medications which can harm you. You must avoid drugs and use instead more natural cures to prevent poisoning your body. Also, you must avoid alcohol, nicotine and sedatives. Generally, your health problems are linked to your emotions and will surface in moments of crises.

To have in mind: many of your emotional unbalances are not produced by external situations or experiences but by blood disorders. The lack of some nutrients or intoxication or other excesses, can often cause changes in your system and lead to depression, anguish, fatigue or aggressiveness. Because of that, if you want to be happy, do not neglect your body--give it the best nutrition possible.

SEVENTH HOUSE: Associations. Marriage.

**Your companion is your reflection.
Everything you find in him, in
some way is in you.**

Aries on 7th house cusp.

It is possible that you will marry young or that your decision to marry will be made in a precocious or impulsive manner. You choose a dynamic, active, strong and a somewhat aggressive man as a husband. You need by your side a dominant and secure man who is sure of himself and who offers you protection and, at the same time, encourages you. It is possible that your married life will not be as calm and stable as you desire, and that throughout crises will occur. Your more common complaints will be about his selfishness, lack of gentleness, infantile or whimsical attitudes, and his explosive temperament that leads to violent situations.

You must understand him and endure his angers without being a part of them. Otherwise, the sum of the tensions could lead to a divorce. In time, your marital situation will become more stable, calm and happy.

You must not make the mistake of blaming only the other person for marital problems. You must learn to see your part in it, to control your idealism and to take a more decisive and active role in the union.

Do not evaluate the success of a relationship by the result because it does not depend solely upon you. Always analyze what you have done: if you have offered yourself correctly, if you have loved sincerely, if you have set aside your selfishness, etc. What the other person does is his own responsibility and you cannot manipulate it. In a couple, the responsibilities are always divided in half; take care of your share. At times, one gives everything and does not receive anything; it does not matter. Destiny will take care of it, returning all the love you may have given. Do not make the mistake of secluding or hardening yourself or becoming emotionally detached because of suffering caused by others. Try always to be truthful with what you feel and give yourself fearlessly because in the Universe nothing gets lost and everything you give, you will get back.

EIGHTH HOUSE: Dangers. Inheritances. Legacies.

Taurus on 8th house cusp.

Only if there is another planet in this house will you possibly be in some type of danger, as this influence is pretty much benevolent by itself and implies protection from accidents or dangers in general. It is important that you watch your diet and avoid excesses. Be cautious about swallowing too fast.

In addition, it is possible that you will receive inherited goods, or gifts that will greatly increase your capital and will contribute to your comfort in life. Marriage will be another source of important income.

Things that benefit Scorpio:

YOUR FAVORABLE DAY: Tuesday.

NUMBER: 9 and 0

COLORS: blood red, wine, black and the range of intense greens or blues.

STONES: hematite, topaz, malachite and ruby.

METAL: iron. In jewelry, silver and platinum favor you more. If you use gold, it is recommended you do so with one of your favorable stones.

Equal energies attract; because of this, people with the same tastes gather together. If you want to attract positive people to your life and experience happy situations, you must take care to improve your own energy. The only way to find a good companion, good friend, good job, etc., is by being good yourself, radiating positive energy.
