Chapter 1

Elementally Sample

Introducing the "building blocks" of astrology

The ancients conceived of four elements that made up the universe: fire, earth, air and water. The section that follows provides a broad, general outline of your character and describes your "elemental" make-up.

Sample: The basics

Four or more planets in Air signs:

Your mind is your most valuable asset and you could be an intellectual. The world of ideas is important to you. Intellectual companionship, seminars, books, magazines, films, and educational cassettes interest you. Feeding your mind is just as important as feeding your body. You probably enjoy being in school can be the place for you.

People fascinate you although you tend to regard them in a detached manner. You enjoy teamwork and social interactions a great deal. Sentimentality does not figure highly in most of your relationships.

You can excel in any field that requires negotiation skills. You probably do well in the fields of selling or writing. You have an affinity for abstract reasoning and codes of law and ethics and are more objective than most people and probably more liberal in your thinking.

One of your weaknesses may be indecisiveness. Too much thinking can result in lost opportunities. There is a right time to get out of your head and make a decision. If you find that you can't sleep because your mind is racing, it might help for you to get up and work with your ideas, recording them on paper or on tape.

Five or more planets in Cardinal signs:

You like to start things and take the initiative. You have to act, but do not like to be told what to do. You are restless, energetic, driving, outgoing, opportunistic and ambitious. You're full of primal energy and do not cope well with direct and constant supervision. You're suited for self-employment, or the kind of work where you are in charge. Probably, you're more busy than bored.

You've a strong outward orientation to career, love, home and family. Deal directly with your surroundings and with other people.

Chapter 2

Sun for Sample

The Sun gives you light and life. It also represents how and where you shine. The Sun is the star of self-expression, ego-identity, leadership, honor, glory and pride.

Sun in Pisces:

The Pisces Sun Sign is in the form of two fish, swimming away from each other. Thus, essentially, there are two of you. One fish is more kind, loving, tolerant, and long-suffering than most people. The other fish can bite with shark's teeth. You only want to hurt people when you are feeling righteous and need to punish the guilty.

It's fair to say that you're imaginative, dreamy, and even mystical. You certainly seem to absorb and drink in your surroundings more than most people. You have many mood swings and can benefit from live music and dance.

The future is there for those who take it and those who make it. More than most people, you are a product of your beliefs as much as your disbeliefs. As Henry Ford said, "Whether you think you can or you can't, you are right." Enjoy.

Sun in 6th house:

You can find yourself and be yourself by putting more appropriate routines into your schedule. When you feel pride and feel that you are of good use, you're on the right path. Find a job that you can throw yourself wholeheartedly into and you will become a beacon of light for others. It is within you to become a superstar by giving a virtuoso performance.

To a large extent, you define yourself by the job that you do. You're not defined by the job that you could do, you're not defined by the job that you should do, **YOU'RE DEFINED BY THE JOB THAT YOU DO.** To be successful, perform a task that allows you to express yourself and your personality. Work in areas that bring you recognition and praise.

You can lose yourself by not taking care of your health. Be sure to rest whenever you need it. Energize, nurse yourself, and focus on your recuperative powers. Your future is counting on you being well-rested, well-nourished, healthy, and robust.

Once you're an adult, you don't have to wait constantly for someone else's permission to do things. Go ahead on a project that matters to you. Feel free to act where you are competent. Create your own magic rituals.

You can ground yourself and get closer to the earth by finding sanctuary in a natural setting. Take more walks in secluded areas. Collect evidence against a polluter. Enjoy some bird watching. Get a membership in

the Cousteau Society. Plant a tree near a prison or hospital. Walk barefoot on wet, dew-covered grass. See time as being unimportant rather than your enemy.

Ruler of 5th house in 2nd:

You can work to diminish the stubborn, lazy side of human nature. To give from the heart, you are encouraged to make your own kind of success in the financial world. Resources, liquid assets, earnings, values, money and possessions will all play a key role in your life. To express your love, give "extra riches and rewards." To get them, make sure that you are doing the "right thing" with your life. You can really achieve something by "playing with the controls" of your liquid assets. You can do something original, creative and brilliant with your money.

Sun Opposition Asc.:

The universe wants you to know that it's OK for you to be an individual, to stand out, and to be just a bit different from everybody else. The universe supports your efforts to be an unique human being.

To be a star you need to clarify your life's purpose and increase your life force. From time to time, it is important for you to awake at dawn and begin your day with ritual, prayer, or meditation. Your life will be as interesting and exciting as you decide it will be.

Sun Square Uranus:

There is a bit of a rebel leader and a trouble maker in you. In itself, this doesn't mean that you're good or bad. It just means that you're self willed, excitable, and capricious. You're not likely to put up with being told what to do. You can gain respect by channeling your reform-minded energy into a bold and practical enterprise. To become a star, it's important for you to respect other people's need for freedom.

You're more original than most people. If you want to contribute something positive to the world, you need to take action in a less erratic manner and to be more practical and persevering.

You're brilliant, original, and independent, though somewhat impulsive and rebellious. You're naturally innovative and can become a star by adjusting your talents to the Information Age. Committing to a serious partnership is challenging for you, to say the least. Go ahead and give yourself permission to enjoy unusual relationships with interesting people.

Sun Square MC:

You've had your share of conflicts with family and authority figures. Your ambitions can be challenges for you. It may seem that you can not get what you want by being yourself. To become a star you are advised to serve the needs of others, but do it on your own terms.

You need a challenging career. You would do well to work in a field where you can express the full force of your personality. At times you may find that you can overwhelm others. However, you're happier and better off commanding their respect. You can become a superstar by developing character and dignity.

You have leadership abilities. Your work could put you in the public spotlight. Before you set out to achieve your goals, however, it is important for you to define your basic sense of self, will, and purpose. You are likely to accomplish something very great. Powerful people will become your friends and allies.

Sun Decile Venus:

You know how to please people and you want to be liked. You can become a star by swaying others with your natural charm and style. Comfort, pleasure, and luxury are necessary for you to be you.

Chapter 3

Moon for Sample

Astrologically speaking, the Moon is an instinctual force. It is a symbol of your emotional life including such things as home, family, mother, dreams, feelings, the public, women and your early childhood.

Pallas on equator

In order to focus creative intelligence, you might play down your "frivolous side".

You are destined to bring a little bit of culture and class into the world. You can help to support and sustain the arts and sciences.

Moon in Capricorn:

You like to maintain your dignity and keep your emotions in check. Normally, you're somewhat cautious, shy and reserved. Under stress, you can get very cold and business-like. Your critics may say that you have no feelings. You might have had a mother who was not the most huggy, kissy person in the world.

It's important for you to let go of harsh self judgments. Focus on realistic self-improvement projects. At times, you can be uptight and rigid. You could benefit from having professional body work, massage, or chiropractic treatments. You should pay more attention to your body and its basic needs.

You should also learn to respond more and to get to understand your feelings. Try taking a calculated risk to find out who really loves you. The more clearly you can define your concept of fun, the more fun you will have.

You're pragmatic. You can work hard and go after and achieve many of your goals and ambitions. Money, power and status interest you, and you're responsible enough to get them. Discipline, patience and commitment will win the day for you. It's O.K. for you to "go for the gold"!

Moon in 5th house:

Ironically, you can feel at home when you're spending a night out on the town. You're happy partying. Part of you is inclined toward speculation and games of chance. You could have public success in connection with places of amusement.

Ruler of 4TH house in 3rd:

A sister or brother or other non-parental relative may have played a key role in your upbringing. To feel really safe and secure, it is crucial that you learn good communications skills.

Moon Conjunct Venus:

Your cheerful disposition can make it easy for you to relate to people. Your tact and diplomacy serve you well. Your sensitivity and tenderness can bring you love.

You might have a sweet tooth and take your enjoyment in a sensuous and sumptuous manner. You like to make your home pleasant but also enjoy getting out in the world and enjoying success. You can do very favorable things in conjunction with women, including business or politics, as well as more personal areas.

Moon Opposition True Node:

You have a spiritual link to other people in past and future lifetimes. The eclipse cycle has an inordinate effect upon your destiny. In this lifetime, you might enjoy visiting Stonehenge.

Moon Square Pluto:

Your sensitivity is strong and intense. From time to time you need to take a chance on an emotional adventure. You were made for enriching relationships. You can relate to others once you have mastered your own self assurance. There could be a touch of the fanatic or zealot in you or your mother. You will need to learn to deal with emotional extremes, insatiable needs, and insane demands made upon you.

Moon Semisextile Neptune:

Part of you is sensitive, romantic and subject to changing moods. You can relate to people through music and art. Find your tune and dance to it. You can experience spiritual, mental and physical healing when you refine your inner vision.

People see your aura and are drawn by your mystique. You can make the most sensuous dreams come vividly true. You take an emotional approach to life.

You can learn to make excellent sales presentations and do creative work. By making small sacrifices you can reach your specific goals. You can be almost too idealistic at times. Give yourself an edge by clearly defining what you want and then going for it.

Chapter 4

Mercury for Sample

Mercury describes patterns of thought, of learning, and of assessing reality. Consequently it affects your self-image and your thinking processes.

Mercury in Aquarius:

You are lucky to have a mind which is keen, quick, accurate and naturally prone to original thinking. Progressive, cutting-edge thoughts attract your interest. You could be a reformer, inventor or multi-media whiz kid.

You are also very inventive, tending to be quite intellectual. You may be one of those reform-minded individuals who set forth to improve the world and you can use modern mass communication tools to your advantage.

Mercury in 5th house:

You may enjoy spending time with your favorite hobbies, and you have fun playing intellectual games. Creative writing would also be an interesting pastime for you. You can accomplish something great by doing what makes you feel proud.

Ruler of 3rd house in 2nd:

You probably like to talk about resources, liquid assets, earnings, values, money and possessions. Once you develop good communication skills, you will get extra riches and rewards. Your ideas can make you successful in the financial world.

Mercury Trine MC:

The more clearly you express yourself, the more successful your career becomes. Share your ideas with the world at large. You can cultivate, circulate and syndicate your information. Using humor will be helpful.

You could achieve a degree of public success in connection with mental activities and games.

Mercury Sextile Uranus:

Small and effective actions are better than too much talk. Learn to speak through your deeds. To make more money, learn to assimilate more information, especially in more technical subjects. When you feel

yourself getting very bored with your work, it is time for you to look for a different job. You can make more money by becoming more independent in your thinking and progressive in your actions.

You have an intuitive, astute, independent and original mind.

Mercury Tridecile Mars:

Your powerful mind and enterprising spirit will help you to realize your goals. You are restless, curious, and impatient and need to slow down from time to time to improve the quality of your communication. Fast talking may or may not be appropriate, depending upon circumstances.

Try to get more excited about the real power of words and how they affect your expression of your ideas. Direct your actions with positive, creative thoughts. You need to get attention so be sure to send out some strong, self-assertive signals. Then take a more creative approach to getting your point across.

Mercury Quincunx Asc.:

You're good at both talking and thinking. You have a talent for exchanging thoughts and ideas with others. There is somewhat of a pixie about you and your appearance. When your mind and your hands are not occupied, you are bored.

Criticism can be helpful when it is professional or solicited by someone. However, if you are often belittling and degrading others, it is a strong signal that you need to raise your self esteem and improve your own condition.

Mercury Biseptile Saturn:

Your infancy and childhood might have been tough. You can overcome it by working to develop your reasoning powers. With effort, in time, you can have deep thoughts and do excellent mental work.

Learn to say what you mean in spite of your doubts. Make plans to see that your ideas are acted upon. Work your ideas. Develop them toward implementation. Think things through and make sure a response is warranted before you issue a criticism. "No problem can withstand the assault of sustained thinking." Voltaire.

Mercury Biseptile Chiron:

Political and polite have the same root. Make yours polite politics. Assume a maverick stance to criticism.

You are challenged to read and write about holistic health practices. Dare to find the right moment to question monopolies.

Mercury Novile Neptune:

Your imagination can work overtime. You can paint pictures with words. You can think on your feet. You can become a super salesperson. Some of your most creative work is done unwittingly, as if you are attuned to a faraway source. You could be an actor, a dreamer, a mystic, a faith healer or a psychic, or probably some combination thereof. Instead of letting your imagination play tricks on you, work to communicate meaningful and significant information. Since you can unconsciously attune yourself to other people's thoughts and

motivations, you need to stay centered, balanced and grounded. You are naturally psychic and prophetic. Organization is a key to your success.

Learn a middle path between fantasy and reality. Be creative without being an escapist. Your imaginative powers are second to none, and you could create for a living. With an extra creative effort, you could turn your richest fantasies into reality.

Chapter 5

Venus for Sample

Astrologically speaking, the planet Venus is the force of affinity. Venus represents a good part of what you attract, cherish, enjoy and are receptive to. Venus describes much of what makes life worth living - among others, love and creativity.

Venus in Capricorn:

In matters of love, loyalty and consistency are important to you. You can be happier with a mature partner - someone more experienced and seasoned. You prefer a rather no-nonsense approach to love, and you appreciate self control. In public, you require dignity, respect, discretion, and decorum.

Practical considerations enter into your love nature. You would like to find someone who is more established, with lots of money. If this is not possible, you certainly would like a partner who is financially secure.

As you grow older, you begin to realize that security also comes from integrity and shared values.

You tend to keep your personal life and business world separate as you see them as very different things. You like to buy gifts which are useful as well as attractive. You can profit by doing business with the older people and with antiques.

Venus in 5th house:

You can find love and be in love by doing what is pleasurable to you. If you want it, go and get it. Become more in love with love and in love with life. Lighten up.

You could make money through your creative efforts. You could turn a hobby into a money making venture. Buy and sell some art work. Enjoy more self expression and creative activities.

Ruler of 7TH house in 4th:

You might marry later in life. To enjoy a good relationship, you need a safe and secure home base. One or both parents might have a strong influence on your relationship. Finding the "right partner" can bring you great security.

Moon Conjunct Venus:

Affectionate, tender and graceful, you like things to be running smoothly and harmoniously. You're a sensitive, caring person. To be happy, you need a beautiful, loving environment. To get what you want, it would be good to become more receptive to and involved in the arts. In order to keep the peace, you should take care not to be too confrontational.

Your creative efforts can have a strong effect on people's emotions. You can contribute to the public good.

Venus Opposition True Node:

In order to be truly fulfilled, you need other people. However, you might not be cut out for easy social intercourse. Therefore, you should push yourself to seek some new friendships. Increasing your social connections can increase your political and business influence. Seek and find alternative community groups. Once you develop a more sociable, obliging manner, you could open new gates for the future.

Venus Square Saturn:

Does your value system sometimes put you in conflict with authority figures? You take relationships very seriously, and when you feel needy, you get very serious which may actually keep people away, even as you try to reach out to them. Sometimes, you believe that you will never find the kind of love you seek.

Relationships are not always easy for you because you feel the amount of affection you receive from the other person is not enough for you. You and your committed partner may spend a great deal of time on your work and every-day duties. Therefore, you may have to struggle to create a warm, personal home environment. Getting into a committed relationship may be prevented or delayed as you tend to do better if you make that commitment at an older age. Some, but not all, of your romantic needs might be sacrificed due to the necessity to take care of an elderly parent or relative. You also could be psychologically bound to a parent and thus restrained from attracting romantic love.

However, responsibility may only temporarily prevent romance. With time and effort, you could find true love. You might choose a love relationship with an older, more mature individual. Your love life will probably improve as you mature.

You can find satisfaction by finding the "right" career.

Venus Square Pluto:

You're artistically gifted and can be intensely original. You have strong personal power and passion. You understand the power of love. Therefore, you should focus on relationships that benefit you and are positive for your well-being. You have the ability to evaluate people's motives. You can use the transforming power of love to create opportunities for irreversible changes for the better. In other words, you can be a force for social progress.

You also have extraordinary earning powers and people are attracted to your charisma. Read *THE RICHEST MAN IN BABYLON* by George S. Clason. It contains the laws of money and wealth and the practices necessary to create riches.

Sun Decile Venus:

When it comes to personal relationships, you make an effort to be sincere, direct, open and honest. Your

compliments are effective. Your genuine respect for others can have miraculous effects.

If you want to get more love, you should develop your grace, charm and sense of values. You can learn to use more allure and appeal to get more of what you want. You thrive on the appreciation people show for the favors you do. You can throw fine parties. Your influence is celebrated. You can support and encourage the arts. Learn to sing or to express yourself in other ways with ease and pleasure.

Venus Semisextile Neptune:

You have a side that is kind and sensitive, but, at the same time, you are high-strung and temperamental. At times you are a starry eyed romantic dreamer and idealist. You can be both appreciative and compassionate toward those you love. Because of your sensitivity, you will be happier if you get clearer about your intentions before you become involved with someone. In other words, you are encouraged to decide what you consciously and unconsciously want in relationships.

Cultivate more faith in yourself. Disassociate yourself from people who try to tell you what you should do. Do what you feel like doing. Do what feels good. You can substantially improve your chances for success by associating with individuals who share aspirations similar to your own. In some way, you could turn your love for music into a money making proposition.

Venus Septile Uranus:

You have a lot of unpredictable creative energy. You can be excited by the unexpected. You can be turned on by novelty. You should choose to do some exciting things. If you want to be a creative genius, you must free yourself enough to be original. You can develop unique social skills and a flair for public relations. However, you are a bit self-willed and emotionally intense. "An eccentric is someone with a unusual idea, until they succeed." Mark Twain

In order to be happy, you should develop the natural sparkle in your personality. Recognize the fact that you are an original piece of work and don't let others take you for granted. You undoubtedly enjoy having unconventional relationships.

Chapter 6

Mars for Sample

Astrologically speaking, the planet Mars is the force of motivation and mobilization. It is a symbol of your drive, action and energy.

Mars is Retrograde:

Often, you do not do what you are told. You do not necessarily obey all of the laws, all of the time. Because of this, it is important for you to decide which laws you will follow. You need a code to live by to make your life easier.

Are you a candidate for repressed and potentially explosive anger? Do you exhibit passive-aggressive behavior? If so, it's a good idea for you to learn healthy and appropriate ways to deal with your anger. Otherwise, your temper may get the best of you. An appropriate channel for these angry feelings might be rigorous physical exercise. Exercises specific to your needs are in the section that follows.

Energetically, you are not necessarily more docile or lazier than other people. You just use your power and strength differently. You can go off on your own tangent. You can have cycles of being quite unconventional.

Mars is Stationary

You're more energetic and hard driving than most people. You are active and mobile and often need to run in high gear. When you want something, you go directly after it. You are a "martial character." You might be a dare devil, a go-getter, a warrior or a cop.

Mars in Libra:

Teamwork is important for you. You have a strong urge to join with others in different kinds of groups. You please yourself by pleasing others. Once you find the right partner, you are content. You can profit by regular exercise such as tennis, badminton, ping pong, racquetball, or fencing

Mars in 2nd house:

Improve your self image and your self worth by asserting yourself in the financial world. You can increase your capacity for practical, productive work. Fight to get what is due you. Work to improve your earning power. First, define your territory and then go get it. You can get excited over money and financial issues. Stay motivated and push directly through obstacles. Do whatever it takes to create the security you need. Allow the thrill of the prospect of owning excellent things to motivate you.

Take the initiative to increase your income. Enterprise and hard work will pay off. Start a new money-making project.

Ascendant in Virgo and Mercury in Aquarius:

You may come across to others as being analytical and very precise. At times you can wear a mask or assume a persona that shows you as being rather fussy and critical of yourself and others. When seeking a mate, be sure to look for someone who is compassionate and spiritual. It's also important for you to find a partner or significant other who can appreciate your practicality and serious outlook on life.

At your best, you can be trusted to get the job done well. On the other hand, some people may find your insistence on perfection to be annoying. However, appearances are usually somewhat deceiving. For a better look at the real you, read on. Please note that this section of the report is most time sensitive and can be off if your time of birth is not accurate.

On the other hand, there are times when you can act in rather unconventional ways. You like to look beyond the obvious and bring your vision to the world. Once you determine the right criteria for a loving friendship, you are halfway to success.

Because the planet Mercury is said to be the "ruler" of your chart, Chapter 4 on Mercury is crucial to understanding ways that you can make your life run more smoothly.

Mars Conjunct Saturn:

Duty and financial planning can motivate you. You can develop good organization, discipline and follow-through. The plans you make can lead you to success. You can be moderately aggressive in your romantic pursuits.

Sometimes it may seem as if the hand of authority wants to smack you silly. Learning to work with "Mars-Saturn energy" can be a real pain. However, if you are faced with many difficulties to overcome, you can be the kind of hero who moves mountains. You should only take on responsibilities that you enjoy. Learn to combine caution and prudence with decisive action. Learn when to stop and when to go.

Usually, you are a productive, methodical worker. You are also quite self-reliant. You can develop exciting career options and powers of endurance.

Mars Square True Node:

You are motivated by power and how it can be used. You seek people who can help you to pursue your goals. To get what you want, you must be competitive, if only with yourself. A quarrelsome attitude could interfere with your destiny so work to keep it under control.

Seek out people who turn you on. In past lives, you probably achieved honor as a hero and a warrior. You have incarnated this time to be a pioneer - to do something first and best and to be a winner.

Mars SemiSquare Uranus:

Excitement motivates you. You have very fast reflexes and can be drawn to high speed machines and the

martial arts. Until you deal with issues around anger, you may be accident-prone. You can be brutally frank and, at times, are fearless and headstrong, and show flashes of uncommon ability. You have a fighting spirit and exceptional strong energy. For better or worse, your friends will play a decisive role in your destiny.

You operate by your own rules and thrive on hard work. You do not easily submit to restraint. Sometimes you feel almost irresistible urges to change or break free from commitments.

Mars Sesquiquadrate MC:

You are rather reckless and excitable and tend to over-work. You likely had a problematic parent and domestic strife in your early childhood.

Mercury Tridecile Mars:

The power of thought is yours to wield. You are good with words and numbers. Sometimes you get so excited that you can't stay still. You've a sharp tongue and mind and quick repartee. Debating, commenting, broadcasting and writing can all be suitable activities.

If you feel nervous, restless and irritable, you might try meditating. You need constructive mental channels. Learn to use your mind and your information successfully.

With a strong mind and good mental energy you are a brisk, lively communicator. For the most part, you're plain-spoken and alert. You enjoy investigations and battles of wit.

Mars Quincunx Chiron:

You could hire a professional trainer or even become one. You are somewhat of a maverick and should seek out an arena where you can run and play hard. You should strengthen your body-mind connection.

Chapter 7

Jupiter for Sample

Astrologically speaking, the planet Jupiter is the force of encouragement and expansion. Jupiter's placement indicates what your most important beliefs are and where you have the opportunity for glory.

You are truly a "Jovial Character." You can be a wheeler-dealer, a liberal, an optimist, a lawyer, a soldier of fortune or a preacher. In some ways, you are lucky. You tend to get away clean when others may be stopped by the heavy hand of authority. There is something very big about you. You are naturally affable and can reach out and network with people in a big way. Expand your limits. Major success is in your future.

Jupiter in Scorpio:

You are sometimes motivated to make some shrewd grabs for power and profit. You have an immense need for secrecy. You can accomplish a lot with your deep probing and determination.

Jupiter in 3rd house:

Take greater advantage of local opportunities. Boldly widen the scope of your communications. Learn to mix different ideas and philosophies. Renew your faith in the unlimited possibilities of your own intelligence.

Get a new grip on social issues. It is your positive thoughts, words and actions that bring you the benefits and advantages that you desire.

Ruler of 9th house in 5th:

You can be blessed with creative genius. Start by getting more upbeat and positive about life and living. You can develop an overwhelming confidence in your ability to have fun. Reach out beyond your present limits and develop enthusiasm and exuberance.

If there are confirming signals in other parts of this report, you could find success working at a casino, in the stock market, or in a theme park, cruise liner or local night club.

Jupiter Sextile Asc.:

Freedom and an optimistic vision of the future is important to you. However, you should remember that you do not always know best. You will learn a great lesson what you learn to pay more attention to others and, at the same time, do your own thing.

Jupiter SemiSquare Neptune:

If somebody tells you that their fantasies and imagination are greater than yours, they are exaggerating. The question is what will you do with your great creative force? How about writing some fiction? Maybe you are suited for water colors.

Jupiter Tridecile True Node:

You will bring people together to do great things. Sometimes it will be serendipity and it sometimes it will be planned. Enhance your atypical social skills.

The past life thing is yours in a big way. For example, you could have a great interest in past lives, you could have lived many past lives and many people from your past lives could be with you right advancing into the future.

Chapter 7A

Work for Sample

It is a wonderful thing to do the "right" work. To make a contribution, to provide a product or service, or to be of use are excellent things, all the more so when you are making lots of money and are recognized and appreciated. There is a direct correlation between work and time. So, as they say, if at first you don't succeed, try, try again. The information that follows will give you an edge on your journey down the road to success.

Midheaven in Gemini and Mercury in Aquarius:

Chapter 8

Saturn for Sample

Astrologically speaking, the planet Saturn is the force of discipline. Saturn defines your duties, responsibilities and the structure of your life. Saturn represents mastery, seasoned professionalism, efficiency, consolidation and dependability.

Saturn is Retrograde:

Something in you bristles against tradition, conventional wisdom and authority. You don't like to be told what to do. Evaluate when and where it is important to take on the establishment.

You can do some of your best work alone. Ironically, in your later years, you may become a leader.

Saturn in Libra:

For you to get past your limits, you need to work to create a fair balance between your individual needs and your needs to be part of a couple. Your personal successes and the amount of pleasure you are allowed from intimacy are ruthlessly correlated to your integrity. You can be very on or off with people, either reserved or committed. You take your personal relationships seriously and have to pay some dues before you get them right.

It is best if you don't get married until you are 30 years old. With some effort, your love life will actually pick up in your senior years. It actually is just and fair for you to enjoy romantic fun. And you can, once you learn diplomatic, social and relationship skills.

By the time you are 56 to 60 years, you can develop an exalted sense of judgment. Sometimes it may seem like you need that long to make up your mind and get all of the facts on a subject. Part of your social responsibility is to see that the game of life is a fair deal. You can develop social awareness and good mediation skills. If you learn to cooperate with enough people, you can achieve something of lasting value. In time, honor and wealth can be yours.

Pamper your kidneys with several glasses of fresh clean water every day.

Saturn in 2nd house:

Until you confront your fears of poverty and become more mature and realistic about money, you can be held back. On the bright side, you can usually find work. On the dark side, you may have to pay some dues and be overworked and underpaid until you learn to master your purchasing power.

Make your own economy more just. As best as is possible, take care of your financial duties and

obligations. (Pay your bills). Question all guarantees. Structure your spending in such a way that insures savings. Concentrate and work on a solid value system. Consolidate your liquid assets.

You can build character by overcoming financial obstacles. Work to become more trustworthy and dependable with money. First learn to judge yourself by who you are, not what you have. Second, learn to be frugal without being stingy. Finally you will become shrewd and get your money's worth and more.

Mars Conjunct Saturn:

You are capable of great work efforts and discipline. Your organizational abilities can see projects through from inception to completion.

Saturn Conjunct Pluto:

How you can get more power is an idea that may obsess you along with status and ambition. Respect, for you, is probably not an option, it is a mandate. You can even learn to access secret or occult powers. You can become a great force for far reaching and long lasting change.

Venus Square Saturn:

Part of you is shy and reserved and possibly even anti-social. Your parents may be a burden. One way or another, the demands of the world seem to stand between you and love. Discontent will be your lot until you define your values, and clarify your goals. To gain more power and a big payoff read Dale Carnegie's classic *How to Win Friends and Influence People*.

In growing up you could have been told that you weren't old enough to do what you want, and that you mustn't touch things. If you're 21 or over, you are old enough and you can touch things.

Saturn Square True Node:

To obtain some of your professional goals, you will require approval from the powers that be. There is a dynamic tension between your ambitions and the ruling class. To gain more power, learn more about the historical influence of secret societies.

Saturn SemiSquare Asc.:

You're more serious, concerned, anxious and responsible than most people. Set out to achieve some short term goals. Build your sense of worth. Work at relation to people.

What will you benefit by showing the world a sour dour face? Answer: The only way to win this game is not to play. To gain more power, make it a daily habit to count your blessings.

Mercury Biseptile Saturn:

You have a practical and logical mind. You're somewhat studious and purposeful. To gain more power, develop your powers of concentration.

Saturn Triseptile Chiron:

You could do some healing work with men, especially around issues of defensiveness and vulnerability. To gain more power, get closer to those in power.

Chapter 8A

Chiron for Sample

Discovered in 1977, Chiron is a relative newcomer to astrology. Named after the half-brother of the Greek god Zeus, Chiron is a comet from outside our solar system, according to the latest scientific findings. In Greek mythology, Chiron was tutored by the Sun and the Moon (Apollo and Artemis) and, in turn, taught the offspring of other gods.

Chiron taught special skills such as astrology, philosophy, ethics, music, medicine, horseback riding, and weaponry. These skills were thought necessary for gods, and humans, to achieve their destinies. The position of Chiron in your birth chart denotes what and where you may teach or be taught. It is also where you can be healed and how you can heal others.

A Centaur, who is part human, and part horse, Chiron is a half-breed. His higher self sometimes struggles with his own animal nature. What follows is a description of the "Chironic" side of your character.

Chiron in Taurus:

To come to terms with your true values and your potential resources, you need to become a bit more of a maverick. Any time you want to open new doorways to the financial world, you only need rearrange your beliefs. To gain a new understanding of the big picture, learn something from bankers, CFO's and earth stewards. To become more prosperous, you need to become more generous. To earn more money, you need to build a new bridge between the known and the unknown. You will become truly rich by realizing that you truly have enough. Ground your belief systems in reality.

Imagine for a moment that you're Mr. Spock of Star Trek fame, Yoda the Jedi Knight, or Helen Keller mentoring the blind, then give some sagacious thought to how you can benefit by helping those less fortunate than yourself. Try your hand at credit unions.

Chiron in 9th house:

Do you synthesize different kinds of ideas? Have you identified your non-conformist purpose in life. Embark on a philosophical quest. Open up to some new fields of thought. Find someone to teach you about international people, places and things. Break out of ideological ruts. Build a bridge between the extremes of hypocrisy and blind faith. Clarify your beliefs. There will be many twists and turns on your path to self discovery.

Asc. Tridecile Chiron:

People may see you as being deeply hurt and somehow grievously wounded, or they may see you as being a gifted healer, sage or shaman. It depends upon where you stop.

Mars Quincunx Chiron:

Try new methods to overcome obstacles. Heal your own ability to assert yourself in a healthy way. First, build up some muscle tone, bulk and definition. Then leave the pack and go after what you want. Your maverick appeal can be socially challenging.

Mercury Biseptile Chiron:

You have a need to say unusual things. Some of what you say is quotable in an unusual way.

Find out more about great messenger gods specifically Hermes, Thoth and Quetzalcoatl.

What kind of tricks and foolish things do you permit yourself to think and do? You can see through the pretenses of others. Will you act upon your perceptions?.

Saturn Triseptile Chiron:

Allow logic to run its course.

Are you bucking authority? How have you been restricted? Was your family hostile and turbulent? Where have you put up walls and refused to deal with the world? The time is coming for you to go beyond your limits. You need to work for the future. Give yourself permission to be freer. Starting with yourself, test the status quo.

Confront bullies. Resist being dominated. Develop your own unique strength. Curb your temper and any asocial and antisocial tendencies that you may have. Enjoy some more mutual high spirited, high energy encounters. Find outlets for your excess energy and learn when to take it easy.

Uranus Decile Pluto:

It's possible that you may push the limits until you break through (What?)... You were born to experience social change. It is possible that if you consciously probe the deepest parts of your unconscious mind(s), and process your stuff, progressive historical forces will prevail. Sometimes you may face anthropological and

sociological disruptions in your personal and professional life.

Strive to overcome personal problems by overcoming your humanity and becoming a transhuman. Start by developing a new technical skill. Scope out futurism. Read science fiction. Take some time to be left alone and some time for experimentation.

Venus Septile Uranus:

You are delighted by the unusual and could be a patron of the avant-garde. There can be a rather unconventional side to your private life. You have no personal need to conform to the conventional rules for relationships.

Sudden romantic attractions and endings can keep you emotionally strung out until you come to terms with your strong personal needs. The brilliance in your aura is great and good.

Chapter 10

Neptune for Sample

Neptune represents fads, impressionability, style, glamour, imagination and inspiration. Neptune is the force of deep space and the force of consciousness expansion.

Neptune in Sagittarius:

When it comes to the world of religion, you tend to be part of a generation that has a blind spot. Your religious beliefs are lofty and even far sighted, you are surrounded on all sides by old, outworn philosophies. Everybody seems to be saying that theirs is the only true way, and they all contradict one another, and coerce themselves and each other into submission. This may tempt you to revert to cynicism and pessimism. Suffice it to say that any group that says that theirs is the only way, and uses violence and coercion to get their way, is wrong.

Write the affirmation "Nothing is permanent or pervasive. Everything appears to pass and to change. I go with the flow. I create the change." 7 times a day for 7 weeks. For at least 5 minutes a day for 5 weeks, concentrate your mind exclusively on the thought "If they aren't that happy, then they aren't that smart. When I'm not that happy, I can make smarter choices".

Neptune in 4th house:

You can create your ideal home. Start by continuously flooding your mind with pictures and images of your ideal living conditions, and of people who live in gorgeous homes and successfully adapt a few strays. Stop watching TV shows and movies about people who live in bad neighborhoods. Start watching programs like This Old House. Enjoy a flight of fancy about domestic bliss. As an after-thought, go hear a keynote speaker articulate the virtues of domestic tranquility. Be sure to sit up front where you can hear them loud and clear. Listen for hidden messages. Further instructions will arrive in the future.

Ruler of 12th house in 6th:

You could be undone by poor diet and not enough exercise. Chronic low and depleted energy might be a hidden enemy or weakness. However, in every negative situation is the potential for something good. You can reverse the effects of bad luck if you get into the spirit of proactive health care. Buy a camera and take some photographs of fresh organic fruits and vegetables. Listen to more folk music. Sometimes you're dreaming and sometimes you're awake. Other times you're in trance states. Make the most of the situation. Hypnotize yourself to budget your time according to your priorities.

To fulfill your destiny, you need to develop your psychic and intuitive skills. Just as importantly, you need to learn to see yourself and other people and situations as they are, not as you really wish they were.

Mercury Novile Neptune:

Love of fantasy is a contributing factor to your living in your own virtual world. Empathy and creative

Pluto in Libra:

You're also part of a Pluto generation that finds it extremely important to exert conscious will power over your most significant relationships. Your generation knows that equality is more than just an expression and part of your task is to eliminate discrimination and harassment. To some degree, your obsession or fear of commitment, is a generational issue. Fate has arranged for you to experience some catharsis, trauma and transformation through partnerships and marriage. Purge yourself of people who aren't dealing with the changing realities of the 1990's. Create deep healing and intimate relationships.

Pluto in 2nd house:

You probably have hidden resources and possibly have deep pockets. Right now, it is crucial for you to transform the way that you make your money. You may have unusual fears, including fears of crowds.

Everybody doesn't want or need your help. Unless you are on billable time or your insight is actively solicited, MYOB, mind your own business. Emotional manipulation is not normal.

The symbolism associated with the Goddess Kali provide great insight into your situation.

Get to the root of your mother complexes.

When it comes to your personal capacity for love, manipulation and power are both issues. You are challenged to let go of the need for control. Chapter 12

Moon's Node for Sample

The nodes represent points in space where the moon's orbit crosses the orbit of the Earth as the Earth orbits the Sun.

True Node in Cancer:

It is possible that in a past life you were held captive by worldly duties. This could have been to the detriment of your private needs. Yes, you probably held quite a bit of power and honor: but personally, your happiness was not a high priority.

To this day, giving into duty and pleasing the boss may be

your path of least resistance, but they are not necessarily the way for you to go. In your present incarnation, you need to balance your worldly duties with your private needs.

Your future lies in paying attention to your feelings. In fact, your spiritual path lies in your emotional and domestic world. Attune yourself to forces from the future. They will guide you to your own personal place of power. Find out where you feel secure, then establish deeper roots. Get closer to planet earth. You are the environment.

It is possible that in a past life you lived in the Mayan or Aztec empire. This time around, Akashic (a record of all that has ever occurred) forces are leading you to visit, do business with and make friends with people from Thailand, Laos and China.

North Node in 11th house:

Part of the cosmic plan is that in this lifetime you are being nudged to share your talents with the world. Over the course of other lifetimes you may have focused on the personal thing. For the purposes of this incarnation the stars impel that you please consider creating more social affiliations. Become involved with a service club or professional organization that feels right for you.

Moon Opposition True Node:

To the extent that you are bothered by the hysterical mob mentality, you have yet to meet your challenge to come to terms with the forces of your own unconscious mind.

Assume another frame of reference when remembering your dreams, and the fates will take a liking to you. I see where you are a very old soul with as many lifetimes as fingers and toes.

Venus Opposition True Node:

The more that you pay attention to the civilizing force, the kinder the fates will be to you. To the extent that you don't enjoy a satisfying life, you have yet to meet the challenge of balancing self love with romantic love.

It is conceivable that in a cycle of past lives you were a diplomat, a beauty queen, a hair dresser and a romantic. To make the most of this lifetime, go for art and beauty, and profit and pleasure.

Mars Square True Node:

The more that you pay attention to your health and well Being, the kinder the fates will be to you. To the extent that you're chronically tired, bored or just not motivated, you have yet to meet the challenge to manage your own body and your own body chemistry.

It is conceivable that in a cycle of past lives you were a police officer, a martial artist, a warrior, a dare devil and a fire fighter. It is not unlikely that you fought many great battles and died many violent deaths.

Saturn Square True Node:

Work with more cyclical changes, and the fates will be kinder to you.

To the extent that your life isn't working, you have not met the challenge to make the most of the moment and realize that the fulcrum of power is in the moment between being and becoming.

TIP: This time around define success on your own terms.

Asc. SemiSquare True Node:

To the extent that you do not feel comfortable with yourself and others, you have not yet met the challenge of really being yourself.

Personality will play a pivotal role in your destiny. Concentrate on improving your character, and the fates will be kinder to you. I see that you've spent many past lives with the same family members, lovers, and authority figures.

Jupiter Tridecile True Node:

Deal with agriculture and nutrition, and the fates will be kinder to you.

It is conceivable that in a cycle of past lives you were a lawyer, a soldier of fortune, and a bible thumper. You could have even been a Buddha, Santa Claus and Uncle Sam. Clearly this time around you need to do something in a big way. Everybody wants to know when you'll pull the goodies out of your bag.

Neptune Triseptile True Node:

To the extent that you are not singing at least one song every day you have not yet met the challenge of your own raised spirit.

Cycling through past lives, you were conceivably a musician, sailor, slave, idealist, mystic and saint. As some kind of monk/nun/health nut you've explored unusual ideas.

Celestial sounds will play a pivotal role in your destiny. You need the complete recordings Paul Horn made inside the Great Pyramid. It's distributed by celestial harmonies.

Attune yourself to the music of the spheres, and the fates will smile with you. Get a copy of The Planets by Gustav Holst and play this symphony regularly.
